Changes in this copy

This copy matches the system after the update of 11 October 2026. It has 214 test cases: 8 rows were reworded and 14 cases were added. Everything else is as in the plan it was made from.

Reworded, because the system now says or does something different: 20-02, 30 (heading), 30-01, 30-02, 64 (heading), 64-01, 64-02, 72-02.

Added, for behaviour the earlier plan did not test: 5-02, 16-05, 20-03, 27-05, 50-03, 80-06, 97-01, 97-02, 97-03, 97-04, 98-01, 98-02, 98-03, 98-04.

Cases that need something set up first: an expired product, a product with fewer than 14 days of sales, a voided sale, a supplier offer and price proposal from a supplier login, a Manager account, a Viewer account, and (for printing and scanning) the USB receipt printer and barcode scanner.
