Project Manager:	Juan Carlo Reusora and Joylinda Jugan		Open (Not yet tested)
Date:			
Run/Tested by:			

MODULE	NO.	TEST CASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	STATUS	COMMENT
STEP 1: SIGN IN								
	1.1	**Positive**	CA-01	Open FETCH, enter the cashier's username and password, then click Sign in	The Point of Sale opens with "Cashier: (name)" and the date at the top			
	1.1a	Negative	CA-02	Enter the username with a wrong password, then click Sign in	**Problem:** A message "Invalid username or password" is displayed **Solution:** Type the correct password, or ask the administrator to reset it			
	1.1b	Negative	CA-03	While signed in, type the address of the Inventory page (inventory.html)	**Problem:** Inventory does not open: the cashier is returned to the Point of Sale **Solution:** No action: Inventory is for the administrator			
STEP 2: STARTING CASH								
	2.1	**Positive**	CA-04	On the first sign-in of the day, enter 500 as the Starting cash, then click Save starting cash	A message "Starting cash saved: ₱500.00" is displayed			
	2.1a	Negative	CA-05	Leave Starting cash empty, then click Save starting cash	**Problem:** A message "Enter the cash in the drawer, or 0 if it is empty" is displayed **Solution:** Count the drawer and type the amount, or 0			
STEP 3: ADD TO CART								
	3.1	**Positive**	CA-06	Click a product card	A message "(product) added to cart" is displayed and it is in the Current sale			
	3.1a	Negative	CA-07	Scan or type a barcode that is not on record	**Problem:** A message "No product found for "(barcode)"" is displayed **Solution:** Scan again or search the product by name; tell the administrator to add the barcode			
	3.1b	Negative	CA-08	Scan the barcode of an expired product	**Problem:** A message "(product) has expired and cannot be sold" is displayed **Solution:** Take it off the shelf and tell the administrator			
	3.1c	Negative	CA-09	Scan the barcode of a product with no stock	**Problem:** A message "(product) is sold out" is displayed **Solution:** Tell the administrator to restock it			
STEP 4: COMPLETE A SALE								

MODULE	NO.	TEST CASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	STATUS	COMMENT
	4.1	**Positive**	CA-10	Enter enough Cash received, click Charge, then click Complete sale	A message "Sale completed! Change: ₱(amount)" is displayed, the stock goes down and the receipt prints			
	4.1a	Negative	CA-11	Click Charge with an empty cart	**Problem:** A message "Cart is empty" is displayed **Solution:** Add at least one product			
	4.1b	Negative	CA-12	Leave Cash received empty, then click Charge	**Problem:** A message "Enter the cash amount received" is displayed **Solution:** Type the cash the customer gave			
	4.1c	Negative	CA-13	Enter less cash than the total, then click Charge	**Problem:** A message "Insufficient cash — customer gave less than the total" is displayed **Solution:** Ask for more cash, or remove an item			
	4.1d	Negative	CA-14	Enter a Discount above the limit, for example 50	**Problem:** A message "The largest discount allowed is (limit)%" is displayed and the discount is lowered to the limit **Solution:** Give a discount within the limit			
	4.1e	Negative	CA-15	Click Complete sale twice quickly	**Problem:** Only one sale is recorded and the stock goes down once **Solution:** No action			
STEP 5: CASH IN / OUT								
	5.1	**Positive**	CA-16	Click Cash in / out, choose Taken out, enter 50 and who took it and why, click Record cash taken out, then Record it	A message "Recorded" is displayed and the cash taken out is listed			
	5.1a	Negative	CA-17	Leave Amount empty, then click Record cash taken out	**Problem:** A message "Enter the amount" is displayed **Solution:** Type the amount			
	5.1b	Negative	CA-18	Enter the amount but leave "Who took it, and what for" empty	**Problem:** A message "Say who took the cash and what for" is displayed **Solution:** Type who took the cash and why			
	5.1c	Negative	CA-19	Take out more cash than the drawer holds	**Problem:** A message "That is more cash than the drawer should hold." is displayed **Solution:** Count the drawer and enter the right amount			
STEP 6: ASK FOR VOID								
	6.1	**Positive**	CA-20	Click My sales today, click Ask for void on a sale, enter what went wrong, then click Send request	A message "Sent to a manager" is displayed and the administrator sees it in Void requests			
	6.1a	Negative	CA-21	Leave the reason empty, then click Send request	**Problem:** A message "Say briefly what went wrong" is displayed **Solution:** Type what went wrong			
	6.1b	Negative	CA-22	Look at a sale that already has a void request	**Problem:** It has no Ask for void button **Solution:** No action: the request is waiting for the administrator			
STEP 7: END OF DAY AND LOGOUT								

MODULE	NO.	TEST CASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	STATUS	COMMENT
	7.1	**Positive**	CA-23	Click End of day, enter the cash counted, then click Save count and close drawer	"Balanced" with a tick, "Over by ₱(amount)" or "Short by ₱(amount)" is shown and the count is saved			
	7.1a	Negative	CA-24	Leave the cash counted empty, then click Save count and close drawer	**Problem:** A message "Enter the cash counted in the drawer" is displayed **Solution:** Count the drawer and type the amount			
	7.1b	Negative	CA-25	After the count is saved, click a product card	**Problem:** A message "Your drawer is closed for today" is displayed **Solution:** Wait for the next day, or ask the administrator to reopen the count			
	7.2	**Positive**	CA-26	Click Logout, then click Yes, Logout	The Sign in page opens			

How to use this script

Follow the steps from top to bottom: each step starts where the one before ended, from signing in to logging out. Every positive test case (numbered 1.1, 1.2 …) is followed by its negative test cases (1.1a, 1.1b …). For a negative test case the expected result gives the Problem first (the exact message the system shows) and then the Solution (what the user does to fix it).

Words in brackets, such as (product) or (amount), stand for the value on the screen. A tooltip is the small box the web browser shows beside a field that must be filled in; its wording comes from the browser.

Mark STATUS with the colours in the legend: green Passed, red Failed, amber In Progress, blank Open.

Set up before testing

- A cashier account that has not yet entered today's starting cash.
- Products with barcodes: one in stock, one expired and one sold out.
- The discount limit set by the administrator (Settings, Preferences).
- For the last end-of-day cases, run them after the count is saved: they show what a closed drawer does.
