Project Name:	FETCH: Inventory Management System with Predictive Analytics for Risha Pet Supplies		Failed (Actual result is NOT same as expected result)
Role tested:	Cashier (26 test cases: 7 happy, 19 sad)		In Progress (Test is still in progress or not yet done)
Date:			Open (Not yet tested)
Project Manager:	Juan Carlo Reusora and Joylinda Jugan		
Run/Tested by:			

MODULE	NO.	TEST CASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	STATUS	COMMENT
1. SIGN IN								
	1.1	**Happy case**	CA-01	On the Sign in page, enter the cashier's username and password, then click Sign in	The Point of Sale opens with "Cashier: (name)" and the date at the top			
	1.1a	Sad case	CA-02	Enter the cashier's username with a wrong password, then click Sign in	A message "Invalid username or password" is displayed and the user stays on the Sign in page			
	1.1b	Sad case	CA-03	While signed in as cashier, type the address of the Inventory page (inventory.html)	Inventory does not open: the cashier is taken back to the Point of Sale			
2. STARTING CASH								
	2.1	**Happy case**	CA-04	On the first sign-in of the day, enter 500 as the Starting cash, then click Save starting cash	A message "Starting cash saved: ₱500.00" is displayed			
	2.1a	Sad case	CA-05	Leave Starting cash empty, then click Save starting cash	A message "Enter the cash in the drawer, or 0 if it is empty" is displayed			
3. ADD TO CART								
	3.1	**Happy case**	CA-06	Click a product card	A message "(product) added to cart" is displayed and the product is in the Current sale			
	3.1a	Sad case	CA-07	Scan or type a barcode that is not in the system	A message "No product found for "(barcode)"" is displayed			
	3.1b	Sad case	CA-08	Scan the barcode of an expired product	A message "(product) has expired and cannot be sold" is displayed and nothing is added			
	3.1c	Sad case	CA-09	Scan the barcode of a product with no stock	A message "(product) is sold out" is displayed and nothing is added			
4. COMPLETE A SALE								
	4.1	**Happy case**	CA-10	Add items, enter enough Cash received, click Charge, then click Complete sale	A message "Sale completed! Change: ₱(amount)" is displayed, the stock goes down and the receipt is shown			
	4.1a	Sad case	CA-11	Click Charge with nothing in the cart	A message "Cart is empty" is displayed			
	4.1b	Sad case	CA-12	Add an item, leave Cash received empty, then click Charge	A message "Enter the cash amount received" is displayed			
	4.1c	Sad case	CA-13	Enter less Cash received than the total, then click Charge	A message "Insufficient cash — customer gave less than the total" is displayed and the sale is not made			

MODULE	NO.	TEST CASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	STATUS	COMMENT
	4.1d	Sad case	CA-14	Enter a Discount above the limit set by the administrator (for example 50)	A message "The largest discount allowed is (limit)%" is displayed and the discount is lowered to the limit			
	4.1e	Sad case	CA-15	Click Complete sale twice quickly	Only one sale is recorded and the stock goes down once			
5. CASH IN / OUT								
	5.1	**Happy case**	CA-16	Click Cash in / out, choose Taken out, enter 50 as the Amount and who took it and what for, click Record cash taken out, then click Record it	A message "Recorded" is displayed and the cash taken out is listed			
	5.1a	Sad case	CA-17	Click Cash in / out, leave Amount empty, then click Record cash taken out	A message "Enter the amount" is displayed			
	5.1b	Sad case	CA-18	Enter an Amount but leave "Who took it, and what for" empty, then click Record cash taken out	A message "Say who took the cash and what for" is displayed			
	5.1c	Sad case	CA-19	Take out more cash than the drawer holds (more than the starting cash plus cash sales), then confirm	A message "That is more cash than the drawer should hold." is displayed and nothing is recorded			
6. ASK FOR VOID								
	6.1	**Happy case**	CA-20	Click My sales today, click Ask for void on a sale, enter what went wrong, then click Send request	A message "Sent to a manager" is displayed; the administrator sees the request under Void requests			
	6.1a	Sad case	CA-21	Click Ask for void and leave the reason empty (or under 3 letters), then click Send request	A message "Say briefly what went wrong" is displayed and nothing is sent			
	6.1b	Sad case	CA-22	Look at a sale that already has a void request	The sale has no Ask for void button, so it cannot be requested twice			
7. END OF DAY								
	7.1	**Happy case**	CA-23	Click End of day, enter the cash counted, then click Save count and close drawer	"Balanced □", "Over by ₱(amount)" or "Short by ₱(amount)" is shown and the count is saved			
	7.1a	Sad case	CA-24	Click End of day, leave the cash counted empty, then click Save count and close drawer	A message "Enter the cash counted in the drawer" is displayed and the drawer stays open			
	7.1b	Sad case	CA-25	After the count is saved, click a product card	A message "Your drawer is closed for today" is displayed and nothing is added			
	7.1c	Sad case	CA-26	After the count is saved, click Cash in / out	The window says "Today's cash count is already recorded, so nothing more can be added for today."			

How to use this plan

Each scenario starts with a happy case (the user does it the right way, numbered 1.1, 1.2 …) followed by its sad cases (the user makes a mistake, leaves something out, types the wrong kind of value or tries something the role may not do, numbered 1.1a, 1.1b …). For every sad case the expected result is the exact message the system shows, so the tester can compare it word for word.

Words in brackets, such as (product) or (amount), stand for the value on the tester's screen. A "tooltip" is the small box the web browser shows next to a field that has to be filled in; its wording comes from the browser, not from FETCH.

Mark STATUS with the colours in the legend: green Passed, red Failed, amber In Progress, blank Open.

Set up before testing

- A cashier account that has not yet entered today's starting cash.
- Products with barcodes: one in stock, one expired and one sold out.
- The discount limit set by the administrator (Settings, Preferences).
- For the last end-of-day cases, run them after the count is saved: they show what a closed drawer does.
