	9.1a	Sad case	SU-26	Open the Supplier Portal when no order from this supplier was received in the last 12 months	A message "Not rated yet: no order from this supplier was received in the last 12 months." is displayed and no stars are given			

How to use this plan

Each scenario starts with a happy case (the user does it the right way, numbered 1.1, 1.2 …) followed by its sad cases (the user makes a mistake, leaves something out, types the wrong kind of value or tries something the role may not do, numbered 1.1a, 1.1b …). For every sad case the expected result is the exact message the system shows, so the tester can compare it word for word.

Words in brackets, such as (product) or (amount), stand for the value on the tester's screen. A "tooltip" is the small box the web browser shows next to a field that has to be filled in; its wording comes from the browser, not from FETCH.

Mark STATUS with the colours in the legend: green Passed, red Failed, amber In Progress, blank Open.

Set up before testing

- A supplier account linked to a supplier in Suppliers.
- Orders from the shop to that supplier: one waiting for confirmation and one already confirmed.
- At least one product that this supplier supplies, with a current price.
- For the 5-offers case: 5 offers from this supplier still waiting for the shop.
