SYSTEM TEST PLAN (ADMINISTRATOR)

Project Name	FETCH: Inventory Management System with Predictive Analytics for Risha Pet Supplies		
Testing Start			
Date/Time		Passed (Result is same as expected)	
Testing End		Failed (Actual result is NOT same as expected result)	
Name/s:		In Progress (Test is still in progress or not yet done)	
		Open (Not yet tested)	

Module	TESTCASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
ADMINISTRATOR							
AUTHENTICATION MODULE							
	Sign in						
		1	Open FETCH in the browser by going to https://risha-pets.onrender.com	The **Sign in** page opens with the **Username** and **Password** fields, the **Keep me signed in** box and the **Sign in** button			
		2	Type a valid username and a valid password, then click the eye icon at the right of the **Password** field twice	The eye icon shows once something is typed. The password is shown as text, then hidden again in dot characters			
		3	Tick the **Keep me signed in** box below the **Password** field and click the **Sign in** button. Then close the browser and open https://risha-pets.onrender.com again	The box is ticked, and the note below it says the account stays signed in on this browser for 7 days. The **Dashboard** opens with the sidebar on the left side and the user account at its lower-left. After opening the site again, the **Dashboard** opens right away without asking to sign in again			
		4	If you forgot your password, type a valid username on the **Sign in** page, then click **Forgot your password?** below the **Sign in** button	The **Reset your password** window opens with the username already filled in			
		5	Check that a valid username is in the box (if it is empty, type a valid username or a valid email), then click **Ask for a reset**	"Request sent. If the account exists, the reset email will follow." is shown, with the note "Not in your inbox? Check your Spam or Junk folder (in Gmail, also Promotions), and mark it 'Not spam' so the next one arrives normally." below it, and the reset link is emailed to the administrator right away			
		6	Open the email inbox and look for the reset email (if it is not in the inbox, check the Spam folder), then click the reset link	The **Choose a new password** page opens			

Module	TESTCASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
		7	Type a valid new password in both fields (example: Risha@2026), then click **Save new password**	"Password has been reset. You can now sign in." is shown, then the page goes back to the **Sign in** page			
DASHBOARD MODULE							
	Dashboard overview						
		1	Sign in as Administrator using a valid username and a valid password, then look at the **Dashboard**	The summary cards, the sales chart, the stock by category chart, recent sales, products that need restocking, expiring products and purchase orders are shown. **Needs restocking** and **Expiring products** each start with an **Act today** line saying what to do, with **Reorder now** or **See which**			
		2	Click **N items need attention** in the line under your name (example: "9 items need attention")	A window shows what needs attention, **Restock needed** and **Expiring soon**, what to do today, and buttons that open each list in Inventory			
		3	Click the **Live** chip in the same line	A small panel shows how long the page has been online and since when, when you signed in, when the server last answered and how often the page updates			
	Quick search						
		1	Press **Ctrl + J** on Windows or Linux, or ⌘ **Command + J** on Mac (or click **Jump to…** at the upper-right), type Pedigree, then click **PEDIGREE ADULT**	The **Inventory** page opens and shows **PEDIGREE ADULT**			
	Expiring products						
		1	Under **Expiring products** at the lower-left of the **Dashboard**, click the **Within 30 days** card	A window opens listing the products that expire within 30 days, with their expiration dates			
	Purchase order status						
		1	Under **Purchase orders** at the lower-right, click the **Confirm offer** button of an order offered by a supplier	The **Confirm this offer** window names the supplier who offered it and says that accepting it makes the order confirmed, with the order number and total			
		2	Click **Confirm offer**	The order is marked "confirmed" and the button changes to **Shipped**			
		3	Click the **Shipped** button of the same order	An update box asks to mark the order as shipped			
		4	Click **Mark shipped**	The order is marked "shipped" and the **Shipped** button changes to **Receive**			
		5	Click the **Receive** button of the same order	A window asks for the expiration date of the new stock			

Module	TESTCASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
		6	Choose an expiration date at least one week from today (example: one year from today), then click **Mark Received**	The order is marked "received" and the items are added to stock			
INVENTORY MODULE							
	Product search and filter						
		1	Click **Inventory** in the sidebar	The **Inventory** page opens with the search box, the filters, the action buttons, the summary cards and the products as cards: the picture on top, the name in large letters, the stock, and the price smaller at the side			
		2	Type a product name, SKU or barcode in the **Search name, SKU, or barcode...** box at the upper-left (example: Aozi)	Only the products that match the search are shown			
		3	Clear the search box, then choose a category in **All Categories** (example: Food)	Only the products in that category are shown			
		4	Choose an animal in **All Species** (example: Cat)	Only the Food products for cats are shown			
		5	Choose an order in **Sort: Default** (example: Price: Low → High)	The products are listed from the lowest to the highest price			
		6	Click the **Table view** icon at the left of the **Add** button, then the **Card view** icon	The products are shown as a table, then as cards again			
	Product addition						
		1	Click the **Add** button	The **Add new product** window opens			
		2	Fill in the product details, in the order of the form: **Product name:** Pedigree Adult Beef 3kg **Category:** Food **Product type:** Dry food **Unit price (₱):** 650 (greater than 0) **Cost price (₱):** 520 (greater than 0 and not greater than the unit price) **Stock on hand:** 20 (not lower than 0) **Reorder level:** 10 **Supplier:** PetCo **Expiration date:** one year from today (it must be at least one week away) **Barcode:** 4809876543210 (letters and numbers only) **Species:** Dog	The SKU is filled in by itself based on the product type (example: DRY-121). The **Expiration date** label shows "*" because Food needs one, and it can only be one week or more from today			

Module	TESTCASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
		3	Click **Save product** at the lower-right of the window	"Product added" is shown and the new product appears in the list			
	Product import						
		1	Click **Import** at the right of the **Add** button	The **Import Products from CSV** window opens with the needed columns (ending with **expiration_date**) and the **Download template** button			
		2	Click **Download template**	The sample file product_import_template.csv is downloaded, with an **expiration_date** column (its sample row expires one year from today)			
		3	Fill in the template with the products, choose the supplier in **Supplier for these products** (example: PetCo Wholesale), then choose the file in **Choose CSV File**	A preview shows how many products were read from the file and the first rows			
		4	Click **Import products**	If no product with the same SKU, barcode or name exists yet, "Import complete" is shown with the number of products imported and they appear in the list. Otherwise those rows are left out and listed with the reason (example: "SKU already exists")			
	Reordering						
		1	Click the **Reorder** button, tick the products to order, change the amount in **To order** if needed (example: 20), then click **Order … products**	A question asks to order that many items and email each order to its supplier			
		2	Click **Create and email orders**	"Purchase orders sent" is shown and each supplier receives its order by email, with the amounts chosen			
	Bulk reorder						
		1	Click two product cards (anywhere except their buttons)	The bar at the bottom of the screen shows "2 selected"			
		2	Click **Bulk reorder** in that bar	The **Reorder 2 selected products** window lists both, ticked, each with its stock, reorder level and the suggested amount in **To order**			
		3	Change one amount in **To order** (example: 15), then click **Order 2 products**	The button shows the items and total being ordered; a question asks to order them and email each order to its supplier			
		4	Click **Create and email orders**	"Purchase orders sent" is shown and each supplier receives its order by email, with the amounts chosen			

Module	TESTCASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
	Barcode assignment						
		1	Click **Barcodes** at the right of the **Reorder** button	The **Assign barcodes** window opens with the products that have no barcode yet. Ticking **Show all** lists every product			
		2	Type a barcode for a product in its barcode box in the **Assign barcodes** window (example: 4801234567890), then press Enter	A check mark (✓) appears beside the barcode box to show that the barcode is saved, and the cursor moves to the next product			
		3	Click the generate icon at the right of another product's barcode box	An in-store barcode is made and saved for that product, and a check mark (✓) appears beside its barcode box to show that it is saved			
	Product images						
		1	Click **Images** at the right of the **Barcodes** button	The **Product images** window opens with the products that have no picture yet			
		2	Click the upload icon at the right of a product, then choose a picture from the computer	A check mark shows that the picture is saved, and it appears beside the product name			
		3	Tick **Show all**, clear a product's picture box, then press Enter	"Picture removed" is shown and the mark beside the box changes from ✓ to a crossed-out picture			
	Stock status filter						
		1	Click **Restock needed** in the row of buttons below the summary cards	Only the products at or below their reorder level are shown (low stock and out of stock together), and the **Restock needed** button is highlighted with how many there are			
		2	Click **Low stock** at the right of **Restock needed**	Only the products that still have stock but are at or below their reorder level are shown			
		3	Click **Out of stock** at the right of **Low stock**	Only the products with no stock left are shown			
		4	Click **Expiring soon** at the right of **Out of stock**	Only the products that expire within the next 30 days are shown			
		5	Click **Expired** at the right of **Expiring soon**	Only the products whose expiration date has passed are shown			
		6	Click **Healthy** at the right of **Expired**	Only the products with enough stock and more than 30 days before they expire are shown			
		7	Click **All** at the left of the same row	All the products are shown again. Each button shows how many products it has			

Module	TESTCASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
	Stock adjustment						
		1	Click a product card (anywhere except its buttons), or tick the box at its upper-left	The bar at the bottom of the screen shows "1 selected" with the **Bulk reorder**, **Adjust stock**, **Delete** and **Clear** buttons			
		2	Click **Adjust stock**, choose **Add stock**, enter 5 in **Quantity** for each product, then click **Continue**	A question asks to add 5 to the selected product			
		3	Click **Add stock**	"Stock adjusted" is shown and the stock goes up by 5			
		4	Click the same product card again, click **Adjust stock**, choose **Remove stock**, enter 2, then click **Continue**	A question asks to remove 2 from the selected product			
		5	Click **Remove stock**	"Stock adjusted" is shown and the stock goes down by 2			
	Product manipulation						
		1	Click the **View** button at the bottom of a product card	The **Product details** window opens with the product's price, stock and supplier			
		2	Click **Edit**, enter a valid **Unit price** that is greater than 0 and not lower than the **Cost price** (example: 1,600), then click **Save product**	"Product updated" is shown and the product has the new price			
		3	Click the trash icon at the lower-right of a product card	A question asks to delete the product			
		4	Click **Delete product**	"Product deleted" is shown, saying the product is in the Trash, with a **Go to Trash** button, and it is removed from the list			
SALES HISTORY MODULE							
	Sales list						
		1	Click **Sales history** in the sidebar	The list of sales opens with the **Total sales amount**, **Total transactions** and **Today's Sales** at the top			
		2	Type a customer name or sale number in the **Search sales...** box at the upper-left (example: Joy)	Only the matching sales are listed in the table			
		3	Look at the **Status** of a sale that a cashier asked to void	It reads **Void requested** instead of Completed until an administrator decides			
	End of day cash count						
		1	Click the **End of day** button at the upper-right of the page	The **End of day cash count (whole shop)** window opens for today and shows the expected cash in the drawer			

Module	TESTCASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
		2	Enter the cash counted in the drawer	The window shows "Balanced", "Over by" or "Short by" compared to the expected cash			
		3	Click **Save count**	"Day closed" is shown with the result of the count			
	Export						
		1	Click **Export Excel** at the right of **End of day**	"Sales exported successfully" is shown and an Excel file of the sales is downloaded			
	Date filter						
		1	Click the **Dates** field beside the search box (it reads "All dates"), then click **This month**	Only the sales made this month are listed, and the field reads the range (example: "Oct 1 – Oct 30, 2026")			
		2	Click the **Dates** field again, choose the **From** and **To** dates, then click **Apply**	Only the sales made within those dates are listed			
	Sale details and receipt						
		1	Click **View** at the right of a sale	The **Sale details** window shows the items sold, the payment, the total and the **Print receipt** button			
		2	Click **Print receipt**	A window opens with the options for printing the receipt			
	Void sale						
		1	Click **Void** at the right of **View** on a sale	A window asks why the sale is being voided			
		2	Type the reason (example: Customer returned the item), then click **Void Sale**	"Sale voided" is shown, the sale is marked Voided and the items go back to stock			
	Delete sale						
		1	On another sale, click the trash icon at the rightmost of the action buttons	The **Delete sale** window says the sale is removed from the records for good and will no longer count in any report, that the Activity log keeps a copy of it, and that **Void** is the way to cancel a sale and keep it on record. It has **Cancel** and **Delete sale** buttons			
		2	Click **Delete sale**	The **Sale deleted** window says "Sale deleted and its items returned to stock." The sale is gone from the list, the totals at the top go down, the products' stock goes up by the items sold, and the Activity log lists the deletion			

Module	TESTCASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
SUPPLIERS MODULE							
	Supplier list						
		1	Click **Suppliers** in the sidebar	The list of suppliers opens with each supplier's contact details and star rating			
		2	Type a supplier name in the **Search suppliers...** box at the upper-left (example: PetCo)	Only the matching suppliers are listed			
	Supplier addition						
		1	Click the **Add supplier** button at the upper-right of the page	The **Add supplier** window opens			
		2	Fill in the supplier details: **Supplier name:** Pawfect Pet Trading **Contact person:** Ana Dela Cruz (letters only, no numbers) **Email:** pawfect.trading@example.com (a valid email) **Phone:** 0917 123 4567 (a real number; the box shows +63 for the Philippines and takes 11 digits at most) **Address:** 123 Rizal Street (optional) **City:** Quezon City (optional) **Payment terms:** Net 30 Then click **Save supplier**	"Supplier added" is shown and the supplier appears in the list			
	Supplier performance						
		1	Click the stars in the **Rating** column of a supplier	The supplier's **Performance** window shows the star rating, the conditions met and the order history			
		2	In the order history, click **Send thanks** on a received order, then **Send thanks**	"Email sent" is shown ("Told <supplier> that <order> arrived, with thanks.") and the button becomes **Thanks sent** with the date, so the thanks cannot be sent again			
		3	Click **Receipt** on a paid order in the order history (an unpaid order has none)	The **Payment receipt** of that order opens, with a **Print** button			
	Email history						
		1	Click **Emails** in the **Email tracking** column of a supplier	The **Email History** window lists the emails sent to the supplier. ✓ means delivered and ✓✓ means opened			

Module	TESTCASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
	Supplier update						
		1	Click **Edit** at the right of a supplier, change the phone number to a new valid contact number (example: 0928 123 4567), then click **Save supplier**	"Supplier updated" is shown with the new contact number			
		2	Click **Edit** on the same supplier, choose **On vacation** in **Status**, then click **Save supplier**	The supplier's **Status** in the list reads **On vacation**, the **Active suppliers** count goes down by one, and its orders show that the supplier is on vacation			
	Supplier deletion						
		1	Click **Delete** at the right of a supplier	A question asks to delete the supplier			
		2	Click **Delete supplier**	"Supplier deleted" is shown with a **Go to Trash** button, and the supplier is removed from the list			
	Purchase orders						
		1	Click the **Orders** tab at the right of **Suppliers**	The supplier offers and the orders on the way are shown as boxes, each listing its items under **Products (N)** and **Quantity**, followed by the cancelled offers and the deliveries not yet paid			
	Supplier offers						
		1	Under **Offered by suppliers**, click **Confirm offer** on an offer	The **Confirm offer** window names the supplier (contact, phone, email and status), when it was offered and when it could arrive, their note, what they offered and the total			
		2	Click **Confirm offer**	The offer becomes a confirmed order under **Orders on the way**			
		3	Look at **Cancelled offers** under the orders	The offers cancelled in the last 30 days are listed, saying whether the supplier took it back (with their reason) or the shop declined it			
	Orders on the way						
		1	Look at the orders under **Orders on the way**	Each order shows its progress (Ordered, Confirmed, Shipped, Received), the delivery date the supplier promised and the items			
		2	Click **Mark shipped** on a confirmed order	A question asks to mark the order as shipped			
		3	Click **Mark shipped**	The order is marked shipped and the **Mark shipped** button changes to **Receive into stock**			

Module	TESTCASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
		4	Click **Receive into stock** on the shipped order	A window asks for the expiration date of the new batch			
		5	Choose an expiration date at least one week from today (example: one year from today), then click **Receive into stock**	The items are added to stock and the order moves to **Delivered, not yet paid**			
	Unpaid deliveries						
		1	Under **Delivered, not yet paid**, click **Mark paid** on an order	The **Mark as paid** window asks how it was paid (Cash, Bank transfer, GCash or Check) and for the reference number			
		2	Choose **Bank transfer**, enter the reference number (example: BDO-2026-10441), then click **Mark paid**	The **Payment receipt** opens with its receipt number, the supplier, the order, the amount, the method and reference, and who recorded it; the order moves from the unpaid list to **Paid**			
		3	Under **Paid**, click **Receipt** on the same order, then **Print**	The same receipt opens and prints			
	Price changes						
		1	Click the **Price changes** tab at the right of **Orders** (it shows how many are waiting, example "3 to decide")	The **Price changes to decide** list opens with each product, its supplier, the price now, the proposed price and how much it changes, with **Accept** and **Decline** buttons. The line under the title says what each does			
		2	Click **Details** on a price (or its product name)	The proposal opens with the supplier and contact, who proposed it and when, the price now and proposed, the selling price, the margin now and after, the stock, what sold in 30 days, their reason and earlier changes, with **Accept** and **Decline**			
		3	Click **Accept** on a new price	The **Accept this price** window says the product's cost in inventory changes to the proposed price			
		4	Click **Accept price**	"Price updated in inventory." is shown, the price leaves the list, the count on the tab goes down, and the product's cost price is the new one			
		5	Click **Decline** on another price, type the reason (example: Too high compared with other suppliers), then click **Decline**	"Proposal declined. The price is unchanged." is shown, and the supplier sees "declined" and the reason on their portal			
	New products						
		1	Click the **New products** tab at the right of **Price changes** (it shows how many are waiting)	The new products that suppliers offered are listed with the supplier, the price and the status			

Module	TESTCASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
		2	Click **Details** on a new product	Its details open (name, brand, what it is, pet, unit, price, about and picture) with **Add to Inventory** and **Decline**			
		3	Click **Add to Inventory**	The **Add new product** window opens filled in with the offered product; saving it adds the product to Inventory and marks the offer added			
REPORTS MODULE							
	Sales report						
		1	Click **Reports** in the sidebar	The **Reports** page opens on the **Sales** tab with four parts: **Summary:** Revenue, shown large, with how it compares with the same number of days just before and how many days had no sales; Sales made, Average per sale and Items sold, each with its own comparison **Over time:** revenue per day, every day of the period; days without sales are marked "No sales recorded" **What sold:** the best-selling products, with a switch to **By category** **Breakdown:** the same figures as a table			
		2	Click the **Period** field (it reads "Last 30 days"), then click **Last 7 days**, **Last 30 days**, **This month** and **All time** one at a time (open the field again each time)	The figures, comparisons and charts change to show each period, and the field reads the period chosen. **All time** shows no comparison			
		3	Click the **Period** field, choose a **From** date not later than the **To** date, then click **Apply**	The report shows only the sales within those dates, and the field reads them (example: "Oct 1 – Oct 9, 2026")			
		4	Under **What sold**, click **By category**, then **Best-selling products**	The same card shows the sales by category, then the best-selling products again			
		5	Click a product under **Best-selling products**	Its details open: units sold, number of sales, sold for, average price, share, price and stock now, with **Open in Inventory**			
		6	Click **Week**, then **Month** under **Show by**	The chart and the table group the sales by week, then by month; the comparisons stay			
		7	Click **Export Excel** at the right of **Show by**	"Sales report exported" is shown and an Excel file of the report is downloaded			

Module	TESTCASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
	Stock planning						
		1	Click the **Stock planning** tab	The **How does the forecast work?** guide is at the top (three short steps and an example from the shop's own products). Four tabs are shown, each saying what it holds (example: **To reorder** "1 product, 1 out of stock", **Expiry** "14 expired, 11 at risk", **Too much stock** "124 products, ₱2.38M tied up", **Forecast** "244 items in the next 30 days"). **To reorder** is open with its list			
		2	Look at **Order this week** on the **To reorder** tab	Each product to order has a red dot (order today or tomorrow) or an amber dot (later this week), why it is on the list (example: "Runs out in about 6 days. Roger Enteria takes about 4 days to deliver"), how many to order and what it costs, the **Order by** date and a **Reorder** button; products for later weeks are under **Later**. When nothing is due it says "Nothing to order this week."			
		3	Click **Order all** (it shows how many and the total cost)	The **Order this week** question says how many purchase orders it creates and that each is emailed to its supplier straight away			
		4	Click **Order and email**	"Purchase orders created" is shown and each supplier receives its order			
		5	Click the **Expiry** tab, then the **Too much stock** tab	Expiry lists the stock about to expire first (amber rows labelled **At risk**, soonest first), then under **Already expired** the expired stock (red rows labelled **Expired**, most recent first); Too much stock lists products with more than three months of stock, with the money tied up			
		6	Click the **Forecast** tab and look at **Expected to sell** and **Expected revenue**	Each has a breakdown: the top 4 categories with a bar, value and share, then the rest, and how the figure adds up			
		7	Click **By brand** in **Expected sales**	The expected sales for the next 30 days are shown by brand in the same card, instead of by category			
		8	Look at **Did it guess right?** on the **Forecast** tab	It shows what FETCH expected for its last test fortnight, what really sold and whether it guessed close, too high or too low, then the best sellers one by one (expected, sold, ✓ close / ↑ guessed high / ↓ guessed low) and what that means for ordering			

Module	TESTCASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
		9	Look at **All products**	Each product says how long the stock **Lasts**, what sells **Next month** as a range (example: "about 0–7"), **How sure** FETCH is (Sure, Rough guess or Too new to tell) and what to **Do this** (example: "Order by Nov 17", "Too much: stop ordering", "Enough")			
		10	Under **All products**, click a product name	Under the list, one plain sentence says what it sold in the last 30 days, what FETCH expects next, how long the shelf lasts and what to do; the chart shows the last eight weeks sold as dark bars and the next four weeks expected as light bars			
		11	At the bottom of the **Forecast** tab, click **About this forecast**	It opens to show only **Sales used** (the days, the dates and the days not counted) and **Forecast accuracy**, broken down: the days tested, what the forecast said, what sold, how far off it was, and each method's score			
	Void requests						
		1	Click the **Void requests** tab	The sales that cashiers asked to void are listed, each with the reason			
		2	Click **Void sale** on a request	A question asks to void the sale			
		3	Click **Void sale**	"Sale voided and its items returned to stock" is shown, and a **Sale voided** notification appears in the bell			
	Activity log						
		1	Click the **Activity log** tab	The list shows who changed what in the system, and when, with each person's role after their name			
		2	Choose **Deleted** in **All actions**	Only the deletions are listed (example: the sale deleted in Sales history)			
USERS MODULE							
	User list						
		1	Click **Users** in the sidebar	The list of users opens with their name, username, email, role, status and the **Edit** and **Deactivate** buttons			
		2	Type a name in the **Search users...** box at the upper-left (example: Ana Reyes)	Only the matching users are listed			

Module	TESTCASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
		3	When a user asks for a password reset, click **Approve and email link** on the request above the list of users	The request is approved and the reset link is emailed to that user			
	User addition						
		1	Click the **Add user** button at the upper-right of the page	The **Add new user** window opens			
		2	Enter the full name, a valid username and a valid email that is not used by another account (example: Ana Reyes, ana.reyes, ana.reyes@example.com), then click **Send code**	A 6-digit code is sent to that email address (if it is not in the inbox, check the Spam folder)			
		3	Enter a valid password and the 6-digit code, choose the role (example: Staff), then click **Create user**	"User created" is shown and the new user appears in the list			
		4	Open the confirmation link sent to the new user's email (if it is not in the inbox, check the Spam folder)	The page says the email is confirmed and the account can now sign in			
	User update						
		1	Click **Edit** at the right of a user, change the full name (example: Ana Cruz), then click **Update user**	"User updated" is shown with the new name. The username cannot be changed			
	User deactivation						
		1	Click **Deactivate** at the right of another user	A question asks to deactivate the account			
		2	Click **Deactivate account**	"Account deactivated" is shown with a **Go to Trash** button, and that user can no longer sign in			
SETTINGS MODULE							
	Profile						
		1	Click the account name at the lower-left of the sidebar, or the gear icon beside it	The **Settings** page opens on the **Profile** tab			
		2	Click **Upload photo**, then choose a picture from the computer that is less than 10 MB	"Profile photo updated" is shown and the picture appears at the lower-left of the sidebar			
		3	Change the full name, then click **Save changes**	"Profile updated" is shown and the new name appears at the lower-left			
	Password						
		1	Click the **Password** tab, enter the valid current password and a valid new password twice, then click **Update password**	"Password changed" is shown			

Module	TESTCASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
	Preferences						
		1	Click the **Preferences** tab, enter 10 in **Largest discount a cashier can give (%)**, then click **Save limit**	"Cashiers can now discount up to 10%" is shown			
		2	Click **Download backup** under **Database backup**	"Backup downloaded" is shown and a backup file of the whole database is downloaded			
		3	Under **Appearance**, click **Dark** in **Theme**, then click **Save changes**	"Appearance saved" is shown and the system changes to the dark theme			
		4	Under **Colours**, click **Green & Gold**, then click **Save changes**	"Appearance saved" is shown; the sidebar, the buttons and **Ask FETCH** turn green			
		5	Click another colour (example: **Purple & Pink**), then click the **Password** tab	A question says "Changes not saved" and asks whether to leave without saving			
		6	Click **Leave without saving**	The **Password** tab opens and the saved colours (Green & Gold) come back			
	Email						
		1	Click the **Email** tab, type a valid email address in **Recipient** under **Send test email**, then click **Send test email**	"Test email sent" is shown and the test email arrives in that inbox (if it is not in the inbox, check the Spam folder)			
	Trash						
		1	Click the **Trash** button under the account at the lower-left of the sidebar (or the **Trash** tab in Settings)	The Trash opens with three tabs, **Products**, **Suppliers** and **Accounts**, each with its count; each item says when it was deleted, by whom and in how many days it is deleted for good, with **Restore** and **Delete permanently** buttons			
		2	On **Products**, click **Restore** on the product deleted in Product manipulation	The **Restored** window says "<product name> is back in Inventory." with an **Open in Inventory** button; the product leaves the Trash			
		3	Click **Suppliers**, then **Restore** on the supplier deleted in Supplier deletion	The **Restored** window says "<supplier name> is back on the supplier list…" with an **Open in Suppliers** button			
		4	Click **Accounts**, then **Restore** on the account deactivated in User deactivation	The **Restored** window says "<name> can sign in again." with an **Open in Users** button			
		5	Click **Delete permanently** on another item, then **Delete permanently**	A question asks "Are you sure you want to permanently delete …?"; then "<name> was deleted permanently." is shown and it leaves the Trash			

Module	TESTCASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
		6	Choose **after 60 days** in **Empty the Trash by itself**	"The Trash now keeps things for 60 days." is shown, and each item says how many days it has left			
		7	Type a name in **Search the Trash** (example: Pedigree)	Only the deleted items that match are listed; with no match, "Nothing in the Trash matches that search." is shown			
NOTIFICATIONS MODULE							
	Notifications						
		1	Click the bell icon at the lower-left of the sidebar	A list of the latest notifications opens, with a dot beside the unread ones			
		2	Click **View all notifications →** at the bottom of the list	The **Notifications** page opens with all the low stock, out of stock and expiring alerts			
		3	Choose **Low Stock** in **All Types**	Only the low stock alerts are listed			
		4	Click a notification (example: a void request)	Its details open: who asked, which sale, the cashier, the total, the items and the reason, with a button to where it is handled (example: **Open Void requests**). It is marked as read			
		5	Click the **Sale voided** notification of the sale voided in Void requests	Its details say the sale was voided and its items went back to stock, with an **Open in Reports** button that opens Reports, **Void requests**			
		6	Click the check mark at the right of a notification	The notification is marked as read			
		7	Click **Mark all read** at the upper-right of the page	"All notifications marked as read" is shown			
		8	Click **Clear read** at the right of **Mark all read**, then click **Clear read** in the window	"Notifications cleared" is shown and the read notifications are removed			
FETCH ASSISTANT MODULE							
	Assistant and help						
		1	Click **Ask FETCH** at the lower-right of any page (on a phone, the paw button)	The **FETCH Assistant & Help** window opens with suggested questions			
		2	Click **What should I reorder?**	The assistant answers using the shop's current stock and sales			
		3	Click **Show the full help guide**	The full help guide is shown inside the window			
		4	Type a question in the **Ask a question or how to do something…** box (example: How do I void a sale?), then press Enter	The assistant answers the question			

Module	TESTCASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
		5	Type "How much did we sell in the last 7 days, and what were the 3 best-selling products?", then press Enter	The assistant answers with the sales total, the number of sales and the 3 best-selling products for those days, the same figures as **Reports**			
		6	Type "Add a new product: Demo Test Treats 100g, category Food, product type Dry food, unit price 120, cost price 90, stock 10, supplier PetCo, expiring one year from today", then press Enter	A card shows the product with what was typed (brand and pet left empty because they were not said) and **Confirm** and **Cancel** buttons. "Not saved yet." is shown: nothing is added until **Confirm** is pressed			
		7	Click **Cancel** on the card	"Cancelled. Nothing was saved." is shown and the product is not in Inventory			
LOGOUT MODULE							
	Sign out						
		1	Click the logout icon at the lower-left corner of the sidebar	A question asks "Are you sure you want to logout?"			
		2	Click **Log out**	The user is signed out and the **Sign in** page opens
