ADMINISTRATOR							
LOGIN							
	Completeness Check						
		1	Check if a valid sign in works Enter the username and the password, then click Sign in	The user is signed in and taken to the home page of the account			
		2	Check if Username is empty Leave Username empty, then click Sign in	A tooltip "Please fill out this field." is displayed on Username			
		3	Check if Password is empty Leave Password empty, then click Sign in	A tooltip "Please fill out this field." is displayed on Password			
		4	Check if the reset username or email is empty Type the username, click "Forgot your password?", clear the Username or email box, then click Ask for a reset	A tooltip "Please fill out this field." is displayed			
		5	Check if New password is empty Open a reset link, leave New password empty, then click Save new password	A tooltip "Please fill out this field." is displayed			
		6	Check if a username is needed for a reset Leave Username empty, then click "Forgot your password?"	A message "Enter your username first." is displayed and the reset box does not open			
	Format Check						
		1	Check if a password with every kind of character is accepted Open a reset link, enter a new password with an uppercase letter, a lowercase letter, a number and a special character, then click Save new password	A message "Password has been reset. You can now sign in. Redirecting to sign in..." is displayed			

Module	TESTCASE	T.S ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
		2	Check if the password has no uppercase letter Enter a new password without an uppercase letter	A message "Password must contain at least one uppercase letter (A–Z)" is displayed			
		3	Check if the password has no lowercase letter Enter a new password without a lowercase letter	A message "Password must contain at least one lowercase letter (a–z)" is displayed			
		4	Check if the password has no number Enter a new password without a number	A message "Password must contain at least one number (0–9)" is displayed			
		5	Check if the password has no special character Enter a new password without a special character	A message "Password must contain at least one special character (e.g. !@#$%)" is displayed			
	Range Check						
		1	Check if a password of 6 or more characters is saved Enter a new password of 6 characters or more that follows the rules, then click Save new password	The password is saved and the user is taken to the Sign in page			
		2	Check if the password is shorter than 6 characters Enter a new password with fewer than 6 characters	A message "Password must be at least 6 characters long" is displayed			
		3	Check if a 6th wrong sign-in is blocked Enter a wrong password 5 times within 15 minutes, then try a 6th time	A message "Too many login attempts. Try again in (seconds)s." is displayed and sign-in is refused			
	Consistency Check						
		1	Check if the Administrator opens the Dashboard Sign in as Administrator	The Dashboard opens: the administrator's home page, with the shop's figures			
		2	Check if the Cashier opens the Point of Sale Sign in as Cashier	The Point of Sale opens, not the Dashboard, with "Cashier: (name)" of the cashier who signed in			
		3	Check if the Supplier opens the Supplier Portal Sign in as Supplier	The Supplier Portal opens with that supplier's own orders and products			
		4	Check if the two passwords do not match Open a reset link, enter a new password and a different password in Confirm password, then click Save new password	A message "Passwords do not match." is displayed and the password is not changed			
	Database Check						
		1	Check if a saved account can sign in Enter a username and password that are saved in the system, then click Sign in	The user is signed in			
		2	Check if "Keep me signed in" keeps the session Tick "Keep me signed in", sign in, close the browser and open FETCH again	The user is still signed in			
		3	Check if the password is wrong	A message "Invalid username or password" is			

Module	TESTCASE	T.S ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
			Enter a username with a wrong password, then click Sign in	displayed			
		4	Check if the email is not yet confirmed Sign in with an account whose email is not yet confirmed	A message "Please confirm your email address first. Check (email) for the confirmation link." is displayed with a "Resend it" link			
		5	Check if the account is deactivated Sign in with an account that was deactivated	A message "Invalid username or password" is displayed and the account cannot sign in			
		6	Check if the reset link has expired or was used Open a reset link that has expired or was already used	A message "This reset link is invalid or has expired. Please request a new one." is displayed			
NAVIGATION (SIDEBAR AND TOP BAR)							
	Consistency Check						
		1	Check if each menu opens its own records Sign in as Administrator and click Dashboard, Inventory, Sales, Suppliers, Reports and Users in the sidebar one after another, then click the bell and View all notifications	Each menu opens its own page with its own records: Inventory lists products, Sales lists sales, Suppliers lists suppliers and Users lists accounts; View all notifications under the bell opens Notifications with the notices			
		2	Check if the bell lists the latest notices Click the Notifications bell	The drop-down lists the latest notices from the Notifications page, with the number of unread ones			
		3	Check if Jump to finds a product Press Ctrl + J (Cmd + J on a Mac), type the name of a product, then press Enter	The Jump to window lists that product and opens it			
		4	Check if a cashier can open Inventory Sign in as Cashier, then type the address of the Inventory page (inventory.html)	The page does not open: the cashier is returned to the Point of Sale			
		5	Check if a supplier can open the Dashboard Sign in as Supplier, then type the address of the Dashboard (dashboard.html)	The page does not open: the supplier is returned to the Supplier Portal			
DASHBOARD							
	Consistency Check						
		1	Check if the product counts match Inventory Compare Total Products, Restock Needed and Expiring Soon with the matching cards in Inventory	The numbers are the same on both pages (both count the same product records)			
		2	Check if Total Revenue matches the Sales page Compare Total Revenue with Total Sales Amount on the Sales page	The amounts are the same (both count the same sales)			
		3	Check if "Within 30 days" lists only those products Click the "Within 30 days" card in the Expiring	Only products whose expiration date is within the next 30 days are listed			

Module	TESTCASE	T.S ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
			products panel				
		4	Check if Needs restocking lists only low products Look at the Needs restocking list	Only products at or below their reorder level are listed			
		5	Check if a voided sale is left out of revenue Void a sale, then look at Recent Sales and Total Revenue	The sale is marked "Voided" and is not counted in Total Revenue			
		6	Check if a well-stocked product is left out Look at the Needs restocking list for a product whose stock is above its reorder level	That product is not listed			
INVENTORY							
	Completeness Check						
		1	Check if a complete product is added Click Add, fill in Product name and Category, choose the Product type, fill in Unit price and Supplier, then click Save product	A message "Product added" is displayed with the SKU it was given (for example DRY-121), and the product is in the list			
		2	Check if Product type is not chosen Click Add, leave Product type unselected, then click Save product	A message "Choose the product type. The SKU is made from it." is displayed under Product type, and the cursor goes to the first field that needs fixing			
		3	Check if Product name is empty Click Add, leave Product name empty, then click Save product	A message "Enter the product name." is displayed under Product name			
		4	Check if Category is not chosen Click Add, leave Category unselected, then click Save product	A message "Choose a category from the list." is displayed under Category			
		5	Check if Unit price is empty Click Add, leave Unit price empty, then click Save product	A message "Enter the unit price (the selling price)." is displayed under Unit price			
		6	Check if Supplier is not chosen Click Add, leave Supplier unselected, then click Save product	A message "Choose a supplier. A product needs one so it can be reordered." is displayed under Supplier			
		7	Check if the stock quantity is empty Click Stock on a product, leave the quantity empty, then click Save adjustment	A message "Enter a quantity above zero." is displayed			
		8	Check if the barcode is empty Click Barcodes, leave a barcode empty, then press Enter	A message "Enter a barcode first" is displayed			
		9	Check if the expiration date of new stock is empty Click Stock on a product that has expired, choose	A message "(product) expired on (date). Enter the expiration date of the stock being added."			

Module	TESTCASE	T.S ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
			"Add stock (received, found, returned)", leave the expiration date empty, then click Save adjustment	is displayed and the stock does not change			
	Format Check						
		1	Check if a correct price and stock are saved Click Add, choose a Product type, enter a price such as 120.50 and a whole number in Stock on hand, then click Save product	The product is saved with those values			
		2	Check if letters can be typed in Unit price Click Add and type letters in Unit price	The letters are not typed: Unit price takes numbers only			
		3	Check if letters can be typed in Stock on hand Click Add and type letters in Stock on hand	The letters are not typed: Stock on hand takes numbers only			
		4	Check if the SKU can be typed in Click Add and try to type in the SKU field	Nothing can be typed: the SKU field is read-only and is filled in from the Product type			
		5	Check if the barcode has a space Click Add, enter a barcode with a space, for example "48 00", then leave the field	A message "The barcode can use letters, numbers and dashes only, with no spaces." is displayed under Barcode			
		6	Check if the price has more than 2 decimals Click Add, enter 120.555 in Unit price, then leave the field	A message "Use at most 2 decimal places, for example 120.50." is displayed under Unit price			
		7	Check if stock sold by the piece has a decimal Click Add, keep Sold by on Piece and enter 2.5 in Stock on hand, then leave the field	A message "Stock sold by the piece has to be a whole number." is displayed			
		8	Check if the photo is not an image Click Add, click Upload and choose a file that is not an image	A message "Please choose an image file" is displayed			
		9	Check if the CSV has no sku or name column Click Import and choose a CSV file without the sku or name column	A message "Missing required columns: sku, name" is displayed			
		10	Check if the CSV has the header row only Click Import and choose a CSV file with the header row only	A message "CSV must have a header row and at least one data row" is displayed			
	Range Check						
		1	Check if removing stock within what is on hand works Click Stock on a product with 20 in stock, choose "Remove stock (taken out)", enter 5, then click Save adjustment	A message "Recorded −5. Stock is now 15." is displayed			
		2	Check if expired stock is replaced when stock is added	The line under the quantity reads "The 20 expired will be removed. Stock will go from 20			

Module	TESTCASE	T.S ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
			Click Stock on an expired product with 20 in stock, choose "Add stock (received, found, returned)" and enter 6	to 6."			
		3	Check if the product name is too short Click Add, enter A as the Product name, then leave the field	A message "The product name is too short: use at least 2 characters." is displayed			
		4	Check if Stock on hand is below 0 Click Add and enter -5 in Stock on hand, then leave the field	A message "The stock on hand cannot be less than 0." is displayed			
		5	Check if Reorder level is below 0 Click Add and enter -1 in Reorder level, then leave the field	A message "The reorder level cannot be less than 0." is displayed			
		6	Check if Cost price is above Unit price Click Add, enter 120.50 as the Unit price and 150 as the Cost price, then leave the field	A message "The cost price (₱150.00) is higher than the unit price (₱120.50): the shop would lose money on each sale. Check both prices." is displayed			
		7	Check if Max stock level is not above Reorder level Click Add, enter 10 as the Reorder level, open More details and enter 5 as the Max stock level	A message "The max stock level has to be higher than the reorder level (10)." is displayed			
		8	Check if Unit price is too large Click Add and enter 100000000 in Unit price, then leave the field	A message "The unit price is too large (₱99,999,999.99 at most)." is displayed			
		9	Check if the expiration date is before today Click Add and choose an Expiration date before today, then click Save product	A message "The expiration date cannot be earlier than today." is displayed			
		10	Check if the stock quantity is 0 Click Stock on a product, enter 0, then click Save adjustment	A message "Enter a quantity above zero." is displayed			
		11	Check if more stock is removed than is on hand Click Stock on a product with 20 in stock, choose "Remove stock (taken out)", enter 999, then click Save adjustment	A message "Only 20 in stock: you cannot remove 999." is displayed and the stock stays 20			
		12	Check if a bulk adjustment of 0 is entered Tick two products, click Adjust stock, enter 0, then confirm	A message "Enter the quantity as a number other than 0: a positive number adds stock, a negative number removes it." is displayed			
	Consistency Check						
		1	Check if Low Stock lists only low products Click the Low Stock chip	Only products at or below their reorder level are listed, and the count on the chip equals the number listed			

Module	TESTCASE	T.S ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
		2	Check if Out of Stock lists only products at 0 Click the Out of Stock chip	Only products with 0 in stock are listed			
		3	Check if Expired lists only expired products Click the Expired chip	Only products whose expiration date has passed are listed			
		4	Check if the category and species filters match Choose a category in All Categories and a species in All Species	Only products of that category and species are listed			
		5	Check if the search lists only matching products Type a name, SKU or barcode in the search box	Only the products that match are listed			
		6	Check if the Restock needed card matches Click the Restock needed card	Only products at or below their reorder level are listed			
		7	Check if the stock preview adds up Click Stock on a product with 20 in stock and type 5	The line under the quantity reads "Stock will go from 20 to 25.", the same stock the list shows			
		8	Check if Expired leaves out unexpired products Click the Expired chip	Products that have not expired are not listed			
		9	Check if a deleted product leaves the till Delete a product, then look for it at the Point of Sale	The product is no longer in the till or the reorder list			
		10	Check if a search with no match says so Type a name no product has in the search box	"No products match your filters" is displayed			
	Database Check						
		1	Check if a new product gets the next SKU Click Add, choose a Product type and enter a name and a barcode no other product has, then click Save product	The product is saved with the next number of the shop's SKUs, for example DRY-121 (a number is never given twice, even after a product is deleted)			
		2	Check if a product edit is saved Open a product, click Edit, change the Unit price, then click Save product	A message "Product updated" is displayed and the new price is shown			
		3	Check if a product is deleted Open a product, click Delete, then click Yes, Delete	A message "Product deleted" is displayed and the product leaves the list			
		4	Check if reordering creates purchase orders Click Reorder, tick the products, click Reorder Selected, then click Yes, Create Orders	A message "Purchase orders sent" is displayed and each supplier is emailed its order			
		5	Check if expired stock is written off Click Stock on a product that has expired, choose "Add stock (received, found, returned)", enter the quantity and the new expiration date, then click Save adjustment	A message "Recorded +(qty). The (n) expired were removed. Stock is now (qty)." is displayed: the expired stock is written off, the new stock replaces it, and the new expiration date is set so the product can be sold again			
		6	Check if the SKU can be changed	The SKU is shown but cannot be changed, and			

Module	TESTCASE	T.S ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
			Open a saved product, click Edit and look at the SKU	there is no Product type to choose			
		7	Check if the product name is already used Click Add and enter a Product name another product already has, then click Save product	A question "This name is already in use" names the other product and its SKU			
		8	Check if the barcode is already used Click Barcodes, tick Show all, type a barcode that another product already uses, then press Enter	A message "The barcode (code) is already used by (product) (SKU (sku)). Each product needs its own barcode." is displayed			
		9	Check if Reorder is clicked when nothing is low Click Reorder when no product is at or below its reorder level	A message "No products need reordering" is displayed			
		10	Check if Save product is clicked twice Click Save product twice quickly	The button shows "Saving…" and only one product is saved			
SALES HISTORY							
	Completeness Check						
		1	Check if a date range filters the sales Choose a From and a To date, then click Filter	Only the sales between those dates are listed			
		2	Check if no date is chosen Click Filter without choosing any date	A message "Select a date range" is displayed			
		3	Check if the void reason is empty Click Void on a sale, leave the reason empty, then click Void Sale	A message "A reason is required to void a sale" is displayed			
		4	Check if the cash counted is empty Click End of day, leave the cash counted empty, then click Save count	A message "Cash counted is not a valid amount" is displayed			
	Range Check						
		1	Check if a count of 0 or more is accepted Click End of day, enter 0 or more as the cash counted	The line under it shows "Balanced" with a tick, "Over by ₱(amount)" or "Short by ₱(amount)"			
		2	Check if From is later than To Choose a From date later than the To date, then click Filter	A message "The start date is after the end date" is displayed			
		3	Check if the cash counted is below 0 Click End of day and type -1000 as the cash counted	The line under it reads "Enter what was counted (0 or more)"			
	Consistency Check						
		1	Check if only the sales in the range are listed Choose a From and a To date, then click Filter	Only the sales between those dates are listed			
		2	Check if a sale number finds that sale	Only that sale is listed			

Module	TESTCASE	T.S ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
			Type a sale number in the search box				
		3	Check if Sale Details match the list Click View on a sale	The Sale Details window shows the same items and total as that sale's row			
		4	Check if Total Sales Amount matches the Dashboard Compare Total Sales Amount with Total Revenue on the Dashboard	The amounts are the same			
		5	Check if a voided sale is left out of the total Look at a voided sale in the list	It is marked Voided and is not counted in Total Sales Amount			
		6	Check if a voided sale can be voided again Look at a sale that is already voided	It has no Void button, so it cannot be voided twice			
	Database Check						
		1	Check if the sales are exported Click Export CSV while sales are listed	The CSV file is saved and a message "Sales exported successfully" is displayed			
		2	Check if a sale is voided Click Void on a sale, enter the reason, then click Void Sale	A message "Sale voided" is displayed, the items return to stock and the status reads Voided			
		3	Check if a sale is deleted Open a sale, click Delete sale, then click Yes, Delete	A message "Sale deleted" is displayed; the Activity log keeps a record of it			
		4	Check if the end-of-day count is saved Click End of day, enter the cash counted, then click Save count	The count is saved with Balanced, Over by or Short by			
		5	Check if there are no sales to export Click Export CSV when no sale is listed	A message "No sales to export" is displayed			
SUPPLIERS							
	Completeness Check						
		1	Check if a complete supplier is added Click Add supplier, fill in Supplier name, Contact person, Email, Phone and Payment terms, then click Save supplier	A message "Supplier added" is displayed and the supplier is in the list			
		2	Check if Supplier name is empty Click Add supplier, leave Supplier name empty, then click Save supplier	A tooltip "Please fill out this field." is displayed on Supplier name			
		3	Check if Contact person is empty Click Add supplier, leave Contact person empty, then click Save supplier	A tooltip "Please fill out this field." is displayed on Contact person			
		4	Check if Email is empty Click Add supplier, leave Email empty, then click Save supplier	A tooltip "Please fill out this field." is displayed on Email			

Module	TESTCASE	T.S ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
		5	Check if Phone is empty Click Add supplier, leave Phone empty, then click Save supplier	A tooltip "Please fill out this field." is displayed on Phone			
		6	Check if the order note is empty In the Orders view, click Notes on an order and click Send with the note empty	A tooltip "Please fill out this field." is displayed			
		7	Check if the date for an expired product is empty In the Orders view, click Receive into stock on an order with an expired product and leave the date empty	A message "(product) (expired (date)) has already expired, so enter the new batch's expiration date" is shown; clicking Receive into stock with no date shows "Enter the new batch's expiration date: the current one has already passed." and the order is not received			
	Format Check						
		1	Check if a correct email and phone are saved Click Add supplier, enter an email with @ and a phone number in digits, then click Save supplier	The supplier is saved			
		2	Check if the email has no @ Enter an email without @, then click Save supplier	A tooltip "Please include an '@' in the email address." is displayed			
		3	Check if the phone number has letters Enter a phone number with letters, for example "abc-defg", then click Save supplier	A message "Enter the phone number in digits (at least 7)." is displayed			
	Range Check						
		1	Check if a phone number of 7 digits or more is saved Enter a phone number of 7 digits or more, then click Save supplier	The supplier is saved			
		2	Check if the phone number has fewer than 7 digits Enter a phone number of fewer than 7 digits, for example 12345, then click Save supplier	A message "Enter the phone number in digits (at least 7)." is displayed			
		3	Check if the expiration date is before today In the Orders view, click Receive into stock and enter an expiration date earlier than today	A message "The expiration date cannot be earlier than today." is displayed			
	Consistency Check						
		1	Check if the Rating matches Performance Look at the Rating column, then click Performance on the same supplier	The stars and the result (Meets the standard / Below the standard / Not rated yet) are the same in both places			
		2	Check if the order history is the supplier's own Click Performance on a supplier	The Purchase order history lists only that supplier's orders			
		3	Check if each rating condition shows its figure	Each condition is ticked or crossed with its			

Module	TESTCASE	T.S ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
			Click Performance on a supplier that has received orders	figure: at least 1 order received; at least 75% on time; at least 90% on time; at least 90% in full; average delivery of 7 days or less. 4 stars or more meets the standard			
		4	Check if each Orders section lists its own orders Open the Orders view	Each section lists only its own orders: Orders on the way, Offered by suppliers, Price changes to decide, and Delivered, not yet paid			
		5	Check if the search lists only that supplier Type a supplier's name in the search box	Only that supplier is listed			
		6	Check if a late supplier is below the standard Click Performance on a supplier whose orders all arrived after the promised date	The on-time conditions are crossed and "Below the standard: it needs 4 stars or more." is displayed			
		7	Check if a supplier with no orders is not rated Click Performance on a supplier with no order received in the last 12 months	A message "Not rated yet: no order from this supplier was received in the last 12 months." is displayed			
	Database Check						
		1	Check if a new supplier is saved Click Add supplier and enter a name that is not on the list, then click Save supplier	The supplier is saved			
		2	Check if a supplier edit is saved Click Edit on a supplier, change the phone, then click Save supplier	A message "Supplier updated" is displayed			
		3	Check if a supplier is deleted Click Delete on a supplier, then click Yes, Delete	A message "Supplier deleted" is displayed			
		4	Check if receiving an order adds the stock Open the Orders view, click Receive into stock on an order, then confirm	The order is received and the stock goes up by the quantities received			
		5	Check if an order is marked paid In "Delivered, not yet paid", click Mark paid, then click Mark paid	A message "Marked as paid." is displayed			
		6	Check if the supplier name is already used Click Add supplier and enter a name that is already on the list, then click Save supplier	A message "A supplier with this name is already on the list." is displayed			
REPORTS — SALES							
	Completeness Check						
		1	Check if a custom period is applied Click Custom, choose a From and a To date, then click Apply	The figures, charts and tables show only that period			
		2	Check if the custom dates are empty	A message "Choose both a start and an end			

Module	TESTCASE	T.S ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
			Click Custom, clear both dates, then click Apply	date" is displayed			
	Range Check						
		1	Check if From on or before To is accepted Click Custom, choose a From date on or before the To date, then click Apply	The report shows that period			
		2	Check if From is later than To Click Custom, choose a From date later than the To date, then click Apply	A message "The start date is after the end date" is displayed			
	Consistency Check						
		1	Check if each period shows only its own sales Click Last 7 days, Last 30 days, This month and All time	Each time, all figures, charts and tables show only the sales of that period			
		2	Check if Day, Week and Month group the same sales Click Day, Week and Month	The revenue chart and table group the same sales by day, week or month			
		3	Check if the category lines add up to Revenue Choose All time and look at the lines under Sales by category	"Items sold, all categories", "Sales recorded without items", "Discounts given" and "Revenue" are listed and add up to Revenue			
		4	Check if a voided sale is left out of revenue Void a sale, then look at Revenue for that day	The voided sale is not counted			
	Database Check						
		1	Check if the sales report is exported Click Export CSV for a period with sales	The CSV file is saved and a message "Sales report exported" is displayed			
		2	Check if the period has no sales to export Click Export CSV for a period with no sales	A message "There is nothing to export for this period" is displayed			
REPORTS — STOCK PLANNING (PREDICTIVE ANALYTICS)							
	Consistency Check						
		1	Check if Stock planning shows all its parts Click the Stock planning tab	The 30-day forecast, What to reorder, Too much stock and How good is the forecast are displayed			
		2	Check if each sales-speed filter matches In All products, click Selling fast, Selling steadily, Selling slowly and Not selling	Each filter lists only the products with that sales speed, with the count on each			
		3	Check if the detail is that product's own Click a product in All products	The detail shows that product's own sales history and 30-day forecast			
		4	Check if What to reorder lists only products to order Look at the What to reorder table	Only products that need ordering are listed, each with the reason, stock on hand, on order, order-by date and suggested quantity			
		5	Check if a product with little sales history is flagged	The detail says "This product has only (n) days			

Module	TESTCASE	T.S ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
			Click a product with fewer than 14 days of sales on record	of sales on record, so this is a cautious first estimate"			
	Database Check						
		1	Check if the reorder list is exported Click Export list when products need reordering	The reorder list is saved and a message "Reorder list exported" is displayed			
		2	Check if there is nothing to reorder Click Export list when no product needs reordering	A message "Nothing needs reordering right now" is displayed			
		3	Check if no product on the list has a supplier Open What to reorder when no product on the list has a supplier	The Create purchase orders button is not shown, so no order can be made			
REPORTS — VOID REQUESTS AND ACTIVITY LOG							
	Consistency Check						
		1	Check if only the void requests are listed Click the Void requests tab	Waiting for a decision lists only the sales cashiers asked to void, with the reason and amount			
		2	Check if a requested sale is voided Click Void sale on a request, then confirm	"Sale voided and its items returned to stock" is displayed and the request leaves Waiting for a decision			
		3	Check if a requested sale is kept Click Keep sale on a request, then confirm	"Request dismissed. The sale stands." is displayed and the request leaves Waiting for a decision			
		4	Check if the activity log filters match Click the Activity log tab, then choose an action and an area	Only the records of that action and that area are listed			
		5	Check if there are no void requests Open Waiting for a decision when no cashier has asked for a void	No request is listed			
NOTIFICATIONS							
	Consistency Check						
		1	Check if Low Stock lists only low-stock notices Choose Low Stock in All Types	Only low-stock notices are listed			
		2	Check if Unread lists only unread notices Choose Unread in All Status	Only unread notices are listed			
		3	Check if a notice is marked read Click Mark as read (the check button) beside an unread notice	It is marked read and the unread count goes down by one			
		4	Check if Mark all read marks every notice Click Mark all read	A message "All notifications marked as read" is displayed and the unread count is 0			
		5	Check if Unread is empty after Mark all read	No notice is listed			

Module	TESTCASE	T.S ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
			Choose Unread in All Status after clicking Mark all read				
USERS (ADMINISTRATOR)							
	Completeness Check						
		1	Check if a complete user is created Click Add user, enter the email, click Send code, enter the 6-digit code and every other field, then click Create user	A message "User created" is displayed and the user is in the list			
		2	Check if Full name is empty Click Add user, leave Full name empty, then click Create user	A tooltip "Please fill out this field." is displayed on Full name
