SYSTEM TEST PLAN — ADMINISTRATOR		Legend:	Passed (Result is same as expected)
Project Name:	FETCH: Inventory Management System with Predictive Analytics for Risha Pet Supplies		Failed (Actual result is NOT same as expected result)
Project Manager:	Juan Carlo Reusora and Joylinda Jugan		In Progress (Test is still in progress or not yet done)
Date:			Open (Not yet tested)
Run/Tested by:			

MODULE	NO.	TEST CASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	STATUS	COMMENT
ALL ROLES — ADMINISTRATOR, CASHIER AND SUPPLIER								
1 SIGN IN								
	1 Sign in page							
	1	Check if the Sign in page opens	ST-001	Open https://risha-pets.onrender.com in the browser	The Sign in page opens with the Username and Password fields, the eye icon, "Keep me signed in", the "Sign in" button and "Forgot your password?"			
	2	Check if the password can be shown and hidden	ST-002	Type a password, click the eye icon in the Password field, then click it again	The password is shown as plain text and the eye icon changes to a crossed-out eye. Clicking it again hides the password as dots and the open eye returns			
	2 Wrong sign in							
	1	Check if the username is empty	ST-003	Leave Username empty, then click the "Sign in" button	A small note "Please fill out this field." appears on Username. The Sign in page stays open			
	2	Check if the password is wrong	ST-004	Enter the username with a wrong password, then click the "Sign in" button	"Invalid username or password" appears. The Sign in page stays open			
	3	Check if sign-in stops after too many tries	ST-005	Enter a username that has no account, with any password, 6 times	After the 5th try, "Too many login attempts. Try again in (seconds)s." appears and sign-in is refused for that username			
	3 Forgot password							
	1	Check if the reset needs a username	ST-006	Leave Username empty, then click "Forgot your password?"	"Enter your username first." appears above Username. The reset box does not open			
	2	Check if the reset box opens	ST-007	Type the username, then click "Forgot your password?"	The "Reset your password" box opens with the username filled in and the "Ask for a reset" and "Cancel" buttons			
	3	Check if the reset can be cancelled	ST-008	Click "Cancel"	The box closes. The Sign in page shows again			
	4	Check if the reset box needs a username	ST-009	Click "Forgot your password?" again, clear the "Username or email" box, then click "Ask for a reset"	A small note "Please fill out this field." appears. Nothing is sent			
	5	Check if a reset can be asked for	ST-010	Type the username again, then click "Ask for a reset"	"Request sent. If the account exists, the reset email will follow." appears			

MODULE	NO.	TEST CASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	STATUS	COMMENT
	6	Check if the reset email arrives	ST-011	Open the email inbox of the account	An Administrator gets the reset email right away. A Cashier or Supplier gets it after the Administrator clicks "Approve and email link" in Users			
	7	Check if the reset link opens	ST-012	Click the link in the reset email	The "Choose a new password" page opens with New password and Confirm password			
	8	Check if the new password has no number	ST-013	Enter a new password without a number, then click "Save new password"	"Password must contain at least one number (0–9)" appears. The password does not change			
	9	Check if the two passwords do not match	ST-014	Enter a different password in Confirm password, then click "Save new password"	"Passwords do not match." appears. The password does not change			
	10	Check if a valid new password is saved	ST-015	Enter and confirm a new password with an uppercase letter, a lowercase letter, a number and a special character, then click "Save new password"	"Password has been reset. You can now sign in." appears, then the Sign in page opens			
	11	Check if the reset link was already used	ST-016	Click the same link in the reset email again	"This reset link is invalid or has expired. Please request a new one." appears			
	4 Email confirmation							
	1	Check if a new account's email is confirmed	ST-017	Open the confirmation link sent to a new account's email	The page says the address is confirmed and the account can now sign in			
	5 Sign in							
	1	Check if a valid account can sign in	ST-018	Enter the username and the password, tick "Keep me signed in", then click the "Sign in" button	Goes to the Dashboard, the Administrator's home page			
	2	Check if "Keep me signed in" keeps the session	ST-019	Close the browser, then open https://risha-pets.onrender.com again	The user is still signed in and goes straight to the home page			
ADMINISTRATOR								
2 DASHBOARD								
	6 Dashboard							
	1	Check if the Dashboard shows the shop's figures	ST-020	Look at the Dashboard	The Dashboard appears with Total Products, Total Revenue, Restock Needed, Expiring Soon and Inventory value, the sales chart, recent sales, products to restock, expiring products and purchase orders			
	2	Check if the sidebar shows the Administrator's pages	ST-021	Look at the sidebar and the top bar	The sidebar shows Dashboard, Inventory, Sales history, Suppliers, Reports and Users, then the user's name with the role "Administrator", the Settings icon, the theme icon and the Logout icon. The top bar shows "Jump to…" and the Notifications bell			
	7 Expiring products							
	1	Check if the expiring products are listed	ST-022	Click the "Within 30 days" card in Expiring products	A window lists the products expiring within 30 days, with their expiration date and quantity			

MODULE	NO.	TEST CASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	STATUS	COMMENT
	2	Check if the window closes	ST-023	Click the "Close" button	The window closes and the Dashboard appears			
	8 Purchase orders							
	1	Check if a purchase order moves to its next status	ST-024	Click the status button of a purchase order in Purchase orders, then click the "Yes, Update" button	"Order updated" appears with "(PO) is confirmed — mark it Shipped when the supplier dispatches it." (or "(PO) is on its way — mark it Received when the goods arrive."), and the order shows its new status			
	9 Top bar and sidebar							
	1	Check if Jump to opens a product	ST-025	Click "Jump to…" (or press Ctrl + J), type the name of a product, then press Enter	Goes to Inventory, where only the chosen product is listed			
	2	Check if the assistant opens	ST-026	Click the FETCH Assistant & Help button	The FETCH Assistant & Help window opens			
	3	Check if the assistant answers	ST-027	Type a question, then send it	The assistant's answer appears			
	4	Check if the bell lists the latest notices	ST-028	Click the Notifications bell	A list opens beside the bell with the latest notifications, and the number on the bell shows how many are unread			
	5	Check if all notifications open	ST-029	Click "View all notifications →"	Goes to the Notifications page			
	6	Check if the theme switches	ST-030	Click the theme (moon) icon, then click it again	The screen turns dark and the moon icon changes to a sun. Clicking the sun turns the screen light again and the moon returns			
	7	Check if the sidebar collapses	ST-031	Click the Risha logo at the top of the sidebar (it has a small arrow badge and the hint "Hide the menu"), then click the logo again	The sidebar narrows to icons only and the logo shows a right-pointing arrow badge with "Show the menu". Clicking the logo again shows the full sidebar			
3 INVENTORY								
	10 Product list							
	1	Check if the Inventory page opens	ST-032	Click "Inventory" in the sidebar	The Inventory page opens with the figures in one strip (Total products, Restock needed, Expiring soon, Total inventory value, Over max level) and the product list			
	2	Check if the card and table views switch	ST-033	Click "Card view", then "Table view"	The products are shown as cards, then as a table			
	3	Check if each status chip lists its products	ST-034	Click the status buttons "Restock needed", "Low stock", "Out of stock", "Expiring soon", "Expired", "Healthy", then "All"	Each button lists only the products with that status ("Restock needed" lists low and out of stock together). "All" lists every product again			
	11 Add product							
	1	Check if the Add product window opens	ST-035	Click the "Add" button	The Add new product window opens			
	2	Check if the SKU fills in from the product type	ST-036	Enter the Product name, choose the Category and the Product type, enter the Unit price, Stock on hand and Reorder level, and choose the Supplier	The SKU fills in by itself from the product type (for example DRY-121). Each field is checked when it is left			

MODULE	NO.	TEST CASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	STATUS	COMMENT
	3	Check if a barcode is generated	ST-037	Click the "Generate" button beside Barcode	A 12-digit in-store barcode starting with 2 is filled in			
	4	Check if a picture can be added	ST-038	Click "More details (optional)", click the "Upload" button and choose a picture	The extra fields appear, and the picture's preview is shown			
	5	Check if a complete product is saved	ST-039	Click the "Save product" button	"Product added" appears with the SKU given. The window closes and the product is in the list			
	6	Check if adding can be cancelled	ST-040	Click "Add", then the "Cancel" button	The window closes without saving. Inventory shows again			
	7	Check if the product name is empty	ST-041	Click "Add", leave Product name empty, then click the "Save product" button	"Enter the product name." appears under Product name and nothing is saved			
	8	Check if letters can be typed in the price	ST-042	Click "Add" and type letters in Unit price	The letters are not typed: Unit price takes numbers only			
	9	Check if the cost is above the price	ST-043	Click "Add", enter 120.50 as the Unit price and 150 as the Cost price	"The cost price (₱150.00) is higher than the unit price (₱120.50): the shop would lose money on each sale. Check both prices." appears			
	10	Check if the product name is already used	ST-044	Click "Add", enter a Product name another product already has, then click the "Save product" button	The confirmation box "This name is already in use" appears with the other product and its SKU			
	11	Check if the barcode is not 8, 12 or 13 digits	ST-045	Click "Add", type 1111 in Barcode, then click the "Save product" button	"A barcode is 8, 12 or 13 digits. This one has 4." appears under Barcode and nothing is saved			
	12	Check if the expiration date is less than 7 days away	ST-046	Click "Add" and type today's date in Expiration date	"The expiration date must be at least 7 days from today: (date) or later." appears under Expiration date as soon as the date is typed, and the product cannot be saved			
	13	Check if the picture is larger than 10 MB	ST-047	Click "Add", click "More details (optional)", click the "Upload" button and choose a picture larger than 10 MB	"This picture is (n) MB. Choose one of 10 MB or less." appears and the picture is not added			
	12 Product details							
	1	Check if the product details open	ST-048	Click the "View" button on a product	The Product details window opens with the SKU, the Barcode (or "None yet") and the other details			
	2	Check if a product edit is saved	ST-049	Click the "Edit" button, change the Unit price, then click the "Save product" button	"Product updated" appears and the new price is shown			
	3	Check if a product is deleted	ST-050	Click the "Delete" button, then the "Yes, Delete" button	"Product deleted" appears. The product leaves the list			
	4	Check if deleting can be cancelled	ST-051	Click the "Delete" button, then the "Cancel" button	The confirmation box closes. The product stays in the list			
	5	Check if the window closes	ST-052	Click the "Close" button	The window closes. Inventory shows again			
	13 Reorder							
	1	Check if the low products are listed	ST-053	Click the "Reorder" button	A window lists the products at or below their reorder level			

MODULE	NO.	TEST CASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	STATUS	COMMENT
	2	Check if products can be selected	ST-054	Tick the products, then click "Reorder Selected"	The "Final check" confirmation box appears			
	3	Check if purchase orders are created	ST-055	Click the "Yes, Create Orders" button	"Purchase orders sent" appears with how many orders were made and the suppliers they were emailed to. Any notes (for example a product skipped for having no supplier) are listed under it in the same message			
	4	Check if the reorder can be cancelled	ST-056	Click "Reorder Selected" again, then the "Cancel" button	The confirmation box closes. No purchase order is created			
	5	Check if nothing needs reordering	ST-057	Click the "Reorder" button when no product is at or below its reorder level	"No products need reordering" appears			
	14 Bulk actions							
	1	Check if a product is picked by clicking its card	ST-058	Click on two product cards (not on their buttons)	Each card is outlined and its tick box is ticked. A bar with "(n) selected", "Bulk reorder", "Adjust stock", "Delete" and "Clear" appears at the bottom of the screen and stays there while scrolling			
	2	Check if every product shown is selected	ST-059	Tick "Select all products shown" above the cards	Every product shown is ticked and the bar shows how many are selected			
	3	Check if stock is added to the selected products	ST-060	Click "Adjust stock", choose "Add stock", enter 5, click "Continue", then the "Yes, Adjust" button	"Stock adjusted" appears with "Updated (n) of (n) selected products." and each product's stock goes up by 5			
	4	Check if stock is removed from the selected products	ST-061	Pick the products again, click "Adjust stock", choose "Remove stock", enter 2, click "Continue", then the "Yes, Adjust" button	"Stock adjusted" appears and each product's stock goes down by 2			
	5	Check if the adjustment can be cancelled	ST-062	Click "Adjust stock", then the "Cancel" button	The window closes and the stock does not change			
	6	Check if the quantity is not a whole number	ST-063	Click "Adjust stock", type 10+10, then click "Continue"	""10+10" is not a whole number. Type one number only, like 10 (no + or - signs, no letters). Use Add stock or Remove stock above to choose which." appears and the window stays open			
	7	Check if more is removed than is in stock	ST-064	Choose "Remove stock", enter more than a picked product has, click "Continue", then the "Yes, Adjust" button	The result lists that product under "Not changed" with "Only (n) in stock: you cannot remove (qty)." and its stock does not change			
	8	Check if the selection clears	ST-065	Click the "Clear" button	The ticks are removed and the bar closes			
	15 Import products							
	1	Check if the Import window opens	ST-066	Click the "Import" button	The Import Products from CSV window opens			
	2	Check if the template downloads	ST-067	Click the "Download template" button	The CSV template is saved to the computer			
	3	Check if products are imported	ST-068	Choose a filled CSV file, then click the "Import products" button	"Import complete" appears with how many products were added			
	4	Check if the import can be cancelled	ST-069	Click the "Cancel" button	The window closes. Inventory shows again			

MODULE	NO.	TEST CASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	STATUS	COMMENT
	5	Check if the CSV has no sku or name column	ST-070	Click "Import" and choose a CSV file without the sku or name column	"Missing required columns: sku, name" appears and nothing is imported			
	16 Barcodes and images							
	1	Check if a barcode is saved	ST-071	Click the "Barcodes" button, scan or type a product's barcode, then press Enter	The barcode is saved for that product			
	2	Check if the window closes	ST-072	Click the "Done" button	The window closes. Inventory shows again			
	3	Check if the barcode is already used	ST-073	Click "Barcodes", tick "Show all", type a barcode another product already uses, then press Enter	"The barcode (code) is already used by (product) (SKU (sku)). Each product needs its own barcode." appears			
	4	Check if the barcode is not 8, 12 or 13 digits	ST-074	Click "Barcodes", type 1111 for a product, then press Enter	"A barcode is 8, 12 or 13 digits. This one has 4." appears and the barcode is not saved			
	5	Check if a product picture is saved	ST-075	Click the "Images" button and upload a picture for a product	The picture is saved for that product			
	6	Check if the window closes	ST-076	Click the "Done" button	The window closes. Inventory shows again			
4 SALES								
	17 Sales list							
	1	Check if the Sales page opens	ST-077	Click "Sales" in the sidebar	The Sales page opens with the Total sales amount, Total transactions and Today's Sales figures in one strip and the list of sales			
	2	Check if the sales are filtered by date	ST-078	Choose a From and a To date, then click the "Filter" button	Only the sales between those dates are listed			
	3	Check if the filter clears	ST-079	Click the "Clear" button	Every sale is listed again			
	4	Check if no date is chosen	ST-080	Click the "Filter" button without choosing any date	"Select a date range" appears			
	5	Check if From is later than To	ST-081	Choose a From date later than the To date, then click the "Filter" button	"The start date is after the end date" appears			
	6	Check if the From date is before the first sale	ST-082	Type a From date before the first sale recorded in FETCH, then click the "Filter" button	"The first sale in FETCH was on (date). Choose that day or later." appears and the list does not change			
	7	Check if the date is in the future	ST-083	Type a To date after today, then click the "Filter" button	"Choose today or an earlier date: there are no sales in the future." appears and the list does not change			
	18 Sale details							
	1	Check if the sale details open	ST-084	Click "View" on a sale	The Sale Details window opens with the items, totals, cashier and payment, and the "Close" and "Print receipt" buttons			
	2	Check if the receipt prints	ST-085	Click the "Print receipt" button	The receipt appears for printing			
	3	Check if the window closes	ST-086	Click the "Close" button	The window closes. Sales shows again			
	19 Delete a sale							

MODULE	NO.	TEST CASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	STATUS	COMMENT
	1	Check if a sale is deleted	ST-087	Click the trash (Delete) button in a sale's row, then the "Yes, Delete" button	The question explains that Void keeps the sale on record. After "Yes, Delete", "Sale deleted" appears and the sale leaves the list			
	2	Check if deleting can be cancelled	ST-088	Click the trash (Delete) button in a sale's row, then the "Cancel" button	The confirmation box closes. The sale stays			
	20 Void a sale							
	1	Check if a sale is voided	ST-089	Click "Void" on a sale, enter the reason, then click the "Void Sale" button	"Sale voided" appears. The items return to stock and the sale is marked Voided			
	2	Check if the void can be cancelled	ST-090	Click "Void" on a sale, then the "Cancel" button	The window closes. The sale is not voided			
	3	Check if the void reason is empty	ST-091	Click "Void" on a sale, leave the reason empty, then click the "Void Sale" button	"A reason is required to void a sale" appears and the sale is not voided			
	21 Export							
	1	Check if the sales are exported	ST-092	Click the "Export CSV" button	The CSV file is saved and "Sales exported successfully" appears			
	2	Check if there are no sales to export	ST-093	Filter to dates with no sales, then click the "Export CSV" button	"No sales to export" appears			
	22 End of day							
	1	Check if the End of day window opens	ST-094	Click the "End of day" button	The End of day cash count (whole shop) window opens with the expected cash			
	2	Check if the cash counted is empty	ST-095	Click "End of day", leave the cash counted empty, then click the "Save count" button	"Cash counted is not a valid amount" appears and nothing is saved			
	3	Check if the business date is in the future	ST-096	Type a Business date after today	"You cannot count a day that has not happened yet. Choose today or an earlier date." appears and the date goes back to today			
	4	Check if the cash count is saved	ST-097	Enter the cash counted, then click the "Save count" button	The count is saved with Balanced, Over by or Short by			
	5	Check if the count can be cancelled	ST-098	Click the "Cancel" button	The window closes without saving. Sales shows again			
5 SUPPLIERS								
	23 Supplier list							
	1	Check if the Suppliers page shows the ratings	ST-099	Click "Suppliers" in the sidebar	The Suppliers page opens with each supplier's stars in the Rating column			
	24 Add supplier							
	1	Check if the Add supplier window opens	ST-100	Click the "Add supplier" button	The Add New Supplier window opens			
	2	Check if a complete supplier is saved	ST-101	Fill in Supplier name, Contact person, Email, Phone and Payment terms, then click the "Save supplier" button	"Supplier added" appears and the supplier is in the list			
	3	Check if adding can be cancelled	ST-102	Click "Add supplier", then the "Cancel" button	The window closes without saving. Suppliers shows again			

MODULE	NO.	TEST CASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	STATUS	COMMENT
	4	Check if the supplier name is empty	ST-103	Click "Add supplier", leave Supplier name empty, then click the "Save supplier" button	A small note "Please fill out this field." appears on Supplier name and nothing is saved			
	5	Check if the email has no @	ST-104	Enter an email without @, then click the "Save supplier" button	A small note "Please include an '@' in the email address." appears			
	6	Check if the phone number has letters	ST-105	Enter a phone number with letters, then click the "Save supplier" button	"Enter the phone number in digits (at least 7)." appears			
	7	Check if the supplier name is already used	ST-106	Enter a supplier name that is already on the list, then click the "Save supplier" button	"A supplier with this name is already on the list." appears			
	25 Edit and delete							
	1	Check if a supplier edit is saved	ST-107	Click "Edit" on a supplier, change the phone, then click the "Save supplier" button	"Supplier updated" appears			
	2	Check if a supplier is deleted	ST-108	Click "Delete" on a supplier, then the "Yes, Delete" button	"Supplier deleted" appears and the supplier leaves the list			
	3	Check if deleting can be cancelled	ST-109	Click "Delete" on a supplier, then the "Cancel" button	The confirmation box closes. The supplier stays			
	26 Performance and emails							
	1	Check if the star rating and history are shown	ST-110	Click "Performance" (or the stars) of a supplier	The star rating with each condition ticked or crossed, and the purchase order history, appear			
	2	Check if the window closes	ST-111	Click the close (×) button	The window closes. Suppliers shows again			
	3	Check if the email history is shown	ST-112	Click "Emails" of a supplier	The Email history window opens with the read receipts			
	4	Check if the window closes	ST-113	Click the "Close" button	The window closes. Suppliers shows again			
	27 Purchase orders							
	1	Check if the Orders view opens	ST-114	Click the "Orders" view	Orders on the way, Offered by suppliers, Price changes to decide, and Delivered, not yet paid appear			
	2	Check if an order is marked confirmed	ST-115	Click "Mark confirmed" on a waiting order, then "Yes, update"	The order is marked confirmed			
	3	Check if an order is marked shipped	ST-116	Click "Mark shipped" on the order, then "Yes, update"	The order is marked on its way			
	4	Check if the expiration date is less than 7 days away	ST-117	Click "Receive into stock" and enter an expiration date less than 7 days from today	"The expiration date must be at least 7 days from today: (date) or later." appears and the order is not received			
	5	Check if an expired product has no new date	ST-118	Click "Receive into stock" on an order with an expired product and leave the expiration date empty	"Enter the new batch's expiration date: the current one has already passed." appears and the order is not received			
	6	Check if a received order adds stock	ST-119	Click "Receive into stock", enter the new batch's expiration date, then click "Receive into stock"	The order is received and the quantities are added to stock			
	7	Check if an order is cancelled	ST-120	Click "Cancel order" on an order, then the "Cancel order" button	The order is marked cancelled			

MODULE	NO.	TEST CASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	STATUS	COMMENT
	8	Check if an offer is accepted	ST-121	Click "Accept offer" on a supplier's offer, then "Accept offer"	The offer becomes a confirmed order			
	9	Check if a new price is accepted	ST-122	Click accept on a proposed price, then "Accept price"	"Price updated in inventory." appears			
	10	Check if an order is marked paid	ST-123	Click "Mark paid" on a delivered order, then "Mark paid"	"Marked as paid." appears			
	11	Check if a note is added	ST-124	Click "Notes" on an order, type a note, then click "Send"	The note is added under the order			
	12	Check if the orders refresh	ST-125	Click the "Refresh" button	The orders are loaded again			
6 REPORTS								
	28 Sales report							
	1	Check if the Sales report opens	ST-126	Click "Reports" in the sidebar	The Sales report appears			
	2	Check if each period shows its sales	ST-127	Click "Last 7 days", "Last 30 days", "This month" and "All time"	The figures, charts and tables change to each period			
	3	Check if custom dates are applied	ST-128	Click "Custom", choose a From and a To date, then click the "Apply" button	The report shows only that period			
	4	Check if the chart is grouped	ST-129	Click "Day", "Week" and "Month"	The revenue chart and table are grouped by day, week or month			
	5	Check if the report is exported	ST-130	Click the "Export CSV" button	The report is saved and "Sales report exported" appears			
	6	Check if the custom dates are empty	ST-131	Click "Custom", clear both dates, then click the "Apply" button	"Choose both a start and an end date" appears			
	7	Check if From is later than To	ST-132	Click "Custom", choose a From date later than the To date, then click the "Apply" button	"The start date is after the end date" appears			
	8	Check if the period has no sales to export	ST-133	Choose a period with no sales, then click the "Export CSV" button	"There is nothing to export for this period" appears			
	29 Stock planning							
	1	Check if the forecast is shown	ST-134	Click the "Stock planning" tab	The 30-day forecast, What to reorder, Too much stock and How good is the forecast appear			
	2	Check if the forecast refreshes	ST-135	Click the "Refresh" button	The forecast and the stock planning figures are worked out again			
	3	Check if the reorder list is exported	ST-136	Click the "Export list" button	The reorder list is saved and "Reorder list exported" appears			
	4	Check if a product's forecast is shown	ST-137	Click "Selling fast", then click a product in All products	Only fast-selling products are listed. The product's sales history and forecast appear			
	5	Check if the detail closes	ST-138	Click the "Close" button	The product detail closes. Stock planning shows again			
	30 Void requests							
	1	Check if the void requests are listed	ST-139	Click the "Void requests" tab	The sales cashiers asked to void are listed with the reason			

MODULE	NO.	TEST CASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	STATUS	COMMENT
	2	Check if a requested sale is voided	ST-140	Click "Void sale" on a request, then confirm	"Sale voided and its items returned to stock" appears			
	3	Check if a requested sale is kept	ST-141	Click "Keep sale" on a request, then confirm	"Request dismissed. The sale stands." appears			
	31 Activity log							
	1	Check if the activity log is filtered	ST-142	Click the "Activity log" tab, then choose an action and an area	Only the records of that action and area are listed			
	2	Check if the log refreshes	ST-143	Click the "Refresh" button	The activity log is loaded again			
7 NOTIFICATIONS								
	32 Notifications							
	1	Check if the Notifications page opens	ST-144	Click the Notifications bell, then "View all notifications →"	The Notifications page opens			
	2	Check if the notices are filtered	ST-145	Choose a type in All Types and a status in All Status	Only those notifications are listed

	1	Check if the email settings are saved	ST-182	Click the "Email" tab, enter the Gmail address and app password, then click the "Save & Check" button	The settings are saved and checked with Gmail			
	2	Check if a test email is sent	ST-183	Enter a recipient, then click the "Send test email" button	The test email is sent			
10 LOGOUT								
	40 Logout							
	1	Check if logout asks first	ST-184	Click the Logout icon in the sidebar	The confirmation box "Are you sure you want to logout?" appears			
	2	Check if the user is logged out	ST-185	Click the "Yes, Logout" button	Goes to the Sign in page with the Username and Password fields empty			
	3	Check if logout can be cancelled	ST-186	Click the Logout icon, then the "Cancel" button	The confirmation box closes. The administrator stays on the same page			

How to follow this plan

The plan walks every screen the Administrator uses, in the order they meet them: Sign in, Dashboard, Inventory, Sales, Suppliers, Reports, Notifications, Users, Settings and Logout.

Each module is split into the features of that screen, and each feature lists its test cases in order: first the ones done the right way, then the invalid ones, where the user does it wrong and the system stops them. TEST CASE says what the test is for, DESCRIPTION is what the user does, and EXPECTED RESULT is what the system shows or where the user is taken. Every button is tried, including Cancel, Close and Done. Run the steps from top to bottom.
