How to follow this plan

The plan is one path through the system, in the order a user meets the screens. It starts at the Sign in page, which leads each role to its home page. The Administrator then goes from the Dashboard through the sidebar in order (Inventory, Sales, Suppliers, Reports, Notifications, Users, Settings) and ends with Logout. The Cashier goes from the starting cash through the day's sales to the end-of-day count and Logout. The Supplier goes from the portal through its orders to Logout.

Each step begins where the step before it ended, so the steps are run from top to bottom. The three roles tested are Administrator, Cashier and Supplier.
