USER ACCEPTANCE TEST PLAN (ADMINISTRATOR)

Project Name: **FETCH: Inventory Management System with Predictive Analytics for Risha Pet Supplies**

Date:

Project Manager: **Juan Carlo Reusora and Joylinda Jugan**

Run/Tested by:

Legend:

- **Passed (Result is same as expected)**
- **Failed (Actual result is NOT same as expected result)**
- **In Progress (Test is still in progress or not yet done)**
- **Open (Not yet tested)**

MODULE	NO.	TESTCASE	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
Login Module							
	1	Completeness Check					
			Check if Username is empty: leave Username empty, then click Sign in	A tooltip "Please fill out this field." is displayed on Username			
	2	Format Check					
			Check if the password has no number: enter a new password without a number	A message "Password must contain at least one number (0–9)" is displayed			
	3	Range Check					
			Check if a 6th wrong sign-in is blocked: enter a wrong password 5 times within 15 minutes, then try a 6th time	A message "Too many login attempts. Try again in (seconds)s." is displayed and sign-in is refused			
	4	Consistency Check					
			Check if the two passwords do not match: open a reset link, enter a new password and a different password in Confirm password, then click Save new password	A message "Passwords do not match." is displayed and the password is not changed			
	5	Database Check					
			Check if the password is wrong: enter a username with a wrong password, then click Sign in	A message "Invalid username or password" is displayed			
	6	System Check					
			Check if the Administrator opens the Dashboard: sign in as Administrator	The Dashboard opens: the administrator's home page, with the shop's figures			
			Check if "Keep me signed in" keeps the session: tick "Keep me signed in", sign in, close the browser and open FETCH again	The user is still signed in			
Navigation Module							
	1	Consistency Check					

MODULE	NO.	TESTCASE	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
			Check if each menu opens its own records: sign in as Administrator and click Dashboard, Inventory, Sales, Suppliers, Reports and Users in the sidebar one after another, then click the bell and View all notifications	Each menu opens its own page with its own records: Inventory lists products, Sales lists sales, Suppliers lists suppliers and Users lists accounts; View all notifications under the bell opens Notifications with the notices			
			Check if a cashier can open Inventory: sign in as Cashier, then type the address of the Inventory page (inventory.html)	The page does not open: the cashier is returned to the Point of Sale			
			Check if a supplier can open the Dashboard: sign in as Supplier, then type the address of the Dashboard (dashboard.html)	The page does not open: the supplier is returned to the Supplier Portal			
	2	System Check					
			Check if Jump to finds a product: press Ctrl + J (Cmd + J on a Mac), type the name of a product, then press Enter	The Jump to window lists that product and opens it			
Dashboard Module							
	1	Consistency Check					
			Check if the product counts match Inventory: compare Total Products, Restock Needed and Expiring Soon with the matching figures in Inventory	The numbers are the same on both pages (both count the same product records)			
	2	System Check					
			Check if a voided sale is left out of revenue: void a sale, then look at Recent Sales and Total Revenue	The sale is marked "Voided" and is not counted in Total Revenue			
Inventory Module							
	1	Completeness Check					
			Check if Product name is empty: click Add, leave Product name empty, then click Save product	A message "Enter the product name." is displayed under Product name			
	2	Format Check					
			Check if letters can be typed in Unit price: click Add and type letters in Unit price	The letters are not typed: Unit price takes numbers only			
			Check if the barcode is not 8, 12 or 13 digits: click Add, type 1111 in Barcode, then click Save product	A message "A barcode is 8, 12 or 13 digits. This one has 4." is displayed under Barcode			
			Check if the bulk quantity is not a whole number: tick a product, click Adjust stock, type 10+10, then click Continue	A message ""10+10" is not a whole number. Type one number only, like 10 (no + or - signs, no letters)." is displayed and the window stays open			
	3	Range Check					

MODULE	NO.	TESTCASE	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
			Check if more stock is removed than is on hand: tick a product with 20 in stock, click Adjust stock, choose Remove stock, enter 999, click Continue, then Yes, Adjust	The result lists the product under "Not changed" with "Only 20 in stock: you cannot remove 999." and the stock stays 20			
			Check if the expiration date is less than 7 days away: click Add and type today's date in Expiration date	A message "The expiration date must be at least 7 days from today: (date) or later." is displayed under Expiration date			
			Check if the picture is larger than 10 MB: click Add, open More details, click Upload and choose a picture larger than 10 MB	A message "This picture is (n) MB. Choose one of 10 MB or less." is displayed and the picture is not added			
	4	Consistency Check					
			Check if Low stock lists only low products: click the Low stock button	Only products with some stock left at or below their reorder level are listed, and the count on the button equals the number listed			
	5	Database Check					
			Check if the barcode is already used: click Barcodes, tick Show all, type a barcode that another product already uses, then press Enter	A message "The barcode (code) is already used by (product) (SKU (sku)). Each product needs its own barcode." is displayed			
	6	System Check					
			Check if reordering creates purchase orders: click Reorder, tick the products, click Reorder Selected, then click Yes, Create Orders	A message "Purchase orders sent" is displayed with the suppliers the orders were emailed to, and any notes are listed in the same message			
			Check if expired stock is written off: in Suppliers, open the Orders view, click Receive into stock on an order for a product that has expired, enter the new batch's expiration date (7 days ahead or later), then confirm	The expired stock is written off, the received stock is added, and the new expiration date is set so the product can be sold again			
Sales History Module							
	1	Completeness Check					
			Check if the void reason is empty: click Void on a sale, leave the reason empty, then click Void Sale	A message "A reason is required to void a sale" is displayed			
	2	Range Check					
			Check if From is later than To: choose a From date later than the To date, then click Filter	A message "The start date is after the end date" is displayed			
			Check if the From date is before the first sale: type a From date before the first sale recorded in FETCH, then click Filter	A message "The first sale in FETCH was on (date). Choose that day or later." is displayed			
			Check if the end-of-day date is in the future: click	A message "You cannot count a day that has not			

MODULE	NO.	TESTCASE	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
			End of day and type a Business date after today	happened yet. Choose today or an earlier date." is displayed and the date goes back to today			
	3	Consistency Check					
			Check if a voided sale is left out of the total: look at a voided sale in the list	It is marked Voided and is not counted in Total Sales Amount			
	4	Database Check					
			Check if the end-of-day count is saved: click End of day, enter the cash counted, then click Save count	The count is saved with Balanced, Over by or Short by			
	5	System Check					
			Check if a sale is voided: click Void on a sale, enter the reason, then click Void Sale	A message "Sale voided" is displayed, the items return to stock and the status reads Voided			
Suppliers Module							
	1	Completeness Check					
			Check if Supplier name is empty: click Add supplier, leave Supplier name empty, then click Save supplier	A tooltip "Please fill out this field." is displayed on Supplier name			
	2	Format Check					
			Check if the email has no @: enter an email without @, then click Save supplier	A tooltip "Please include an '@' in the email address." is displayed			
	3	Range Check					
			Check if the expiration date is less than 7 days away: in the Orders view, click Receive into stock and enter an expiration date less than 7 days from today	A message "The expiration date must be at least 7 days from today: (date) or later." is displayed			
	4	Consistency Check					
			Check if the Rating matches Performance: look at the Rating column, then click Performance on the same supplier	The stars and the result (Meets the standard / Below the standard / Not rated yet) are the same in both places			
	5	Database Check					
			Check if the supplier name is already used: click Add supplier and enter a name that is already on the list, then click Save supplier	A message "A supplier with this name is already on the list." is displayed			
	6	System Check					
			Check if receiving an order adds the stock: open the Orders view, click Receive into stock on an order, then confirm	The order is received and the stock goes up by the quantities received			
Sales Report							

MODULE	NO.	TESTCASE	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
Module							
	1	Completeness Check					
			Check if the custom dates are empty: click Custom, clear both dates, then click Apply	A message "Choose both a start and an end date" is displayed			
	2	Range Check					
			Check if From is later than To: click Custom, choose a From date later than the To date, then click Apply	A message "The start date is after the end date" is displayed			
	3	Consistency Check					
			Check if the category lines add up to Revenue: choose All time and look at the lines under Sales by category	"Items sold, all categories", "Sales recorded without items", "Discounts given" and "Revenue" are listed and add up to Revenue			
	4	System Check					
			Check if a voided sale is left out of revenue: void a sale, then look at Revenue for that day	The voided sale is not counted			
Stock Planning Module							
	1	Consistency Check					
			Check if What to reorder lists only products to order: look at the What to reorder table	Only products that need ordering are listed, each with the reason, stock on hand, on order, order-by date and suggested quantity			
	2	Database Check					
			Check if the reorder list is exported: click Export list when products need reordering	The reorder list is saved and a message "Reorder list exported" is displayed			
Void Requests and Activity Log Module							
	1	Consistency Check					
			Check if the activity log filters match: click the Activity log tab, then choose an action and an area	Only the records of that action and that area are listed			
	2	System Check					
			Check if a requested sale is voided: click Void sale on a request, then confirm	"Sale voided and its items returned to stock" is displayed and the request leaves Waiting for a decision			
Notifications Module							
	1	Consistency Check					

MODULE	NO.	TESTCASE	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
			Check if Low Stock lists only low-stock notices: choose Low Stock in All Types	Only low-stock notices are listed			
			Check if Mark all read marks every notice: click Mark all read	A message "All notifications marked as read" is displayed and the unread count is 0			
User Management Module							
	1	Completeness Check					
			Check if Full name is empty: click Add user, leave Full name empty, then click Create user	A tooltip "Please fill out this field." is displayed on Full name			
	2	Format Check					
			Check if the password has no number: enter a password without a number, then click Create user	A message "Password too weak" is displayed with "Add at least one number (0–9)."			
	3	Range Check					
			Check if the password is shorter than 6 characters: enter a password with fewer than 6 characters, then click Create user	A tooltip "Please lengthen this text to 6 characters or more (you are currently using (number) characters)." is displayed on Password			
	4	Consistency Check					
			Check if you can deactivate your own account: look at your own row in the Users list	There is no Deactivate button on your own account			
	5	Database Check					
			Check if the username is already taken: enter a username that is already taken	A message "Username already taken" is displayed			
	6	System Check					
			Check if an account is deactivated: click Deactivate on another user, then click Yes, deactivate	A message "Account deactivated" is displayed and that user can no longer sign in			
Settings Module							
	1	Completeness Check					
			Check if Full name is empty: in Profile, clear Full name, then click Save changes	A message "Please enter your full name" is displayed			
	2	Format Check					
			Check if the email has no @: in Profile, enter an email without @, then click Save changes	A message "Please enter a valid email address" is displayed			
	3	Range Check					
			Check if the discount limit is above 100: enter 150 in "Largest discount a cashier can give (%)", then	A message "Enter a limit between 0 and 100" is displayed			

MODULE	NO.	TESTCASE	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
			click Save limit				
	4	Consistency Check					
			Check if the two passwords do not match: in Password, enter a different password in Confirm new password	A message "Passwords do not match" is displayed			
	5	Database Check					
			Check if the current password is wrong: in Password, enter a wrong current password, then click Update password	A message "Password not changed" is displayed with "Current password is incorrect"			
	6	System Check					
			Check if the password is changed: in Password, enter the current password and the same new password twice, then click Update password	A message "Password changed" is displayed, and the new password works the next time the user signs in
