		Open (Not yet tested)	

Module	TESTCASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
CASHIER							
AUTHENTICATION MODULE							
	Sign in						
		1	Open FETCH in the browser by going to https://risha-pets.onrender.com	The **Sign in** page opens with the **Username** and **Password** fields, the **Keep me signed in** box and the **Sign in** button			
		2	Type a valid username and a valid password, then click the eye icon at the right of the **Password** field twice	The eye icon shows once something is typed. The password is shown as text, then hidden again in dot characters			
		3	Tick the **Keep me signed in** box below the **Password** field	The box is ticked, and the note below it says the account stays signed in on this browser for 7 days and to leave it off on a shared till			
		4	Click the **Sign in** button	The **Point of sale** opens. The sidebar is on the left side, and the account picture is at its lower-left			
		5	Close the browser, then open https://risha-pets.onrender.com again	The **Point of sale** opens right away without asking to sign in again			
		6	On the **Sign in** page, if you forgot your password, click **Forgot your password?** below the **Sign in** button	The **Reset your password** window opens. The username is already filled in if it was typed on the **Sign in** page			
		7	Type a valid username or a valid email, then click **Ask for a reset**	A message says that the request is sent to an administrator for approval			
		8	After an administrator approves the request, open the reset link sent to the email	The **Choose a new password** page opens			
		9	Type a valid new password in both fields (example: Risha@2026), then click **Save new password**	"Password has been reset" is shown, then the page goes back to **Sign in**			

Module	TESTCASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
POINT OF SALE MODULE							
	Starting cash						
		1	Sign in as Cashier using a valid username and a valid password at the start of the day	The **Starting cash** window opens and asks for the cash in the drawer			
		2	Enter the cash in **Cash in the drawer now (₱)** (example: 500), then click **Save starting cash**	"Starting cash saved: ₱500.00" is shown at the top right of the screen			
	Product search						
		1	Scan a product's barcode, or type it in the **Scan barcode** box at the upper-left	As soon as the whole barcode is in the box, the product is added to the **Current sale** on the right side (no Enter needed)			
		2	Type a product name in the **Search products** box at the right of **Scan barcode** (example: Aozi)	Only the matching products are shown in the product list, as you type			
		3	Click a category in the list at the left (example: Food)	Only the products in that category are shown			
	Current sale						
		1	Click a product in the list, or its **Add** button	"(product) added to cart" is shown and the product is listed in the **Current sale**			
		2	In the **Current sale**, click the **+** button of the item, then the **–** button	The quantity goes up by one, then down by one, and the total changes with it			
		3	Type the customer's name and a valid contact number in **Customer Name (optional)** and **Phone (optional)** (example: Maria Santos, 0917 123 4567)	If the customer's name and contact number are entered, they are shown on the receipt			
		4	Enter a discount within the administrator's limit (example: 5%)	The discount amount is computed and the total goes down			
	Payment						
		1	Under **Cash received**, click **Exact**	The cash received is filled in with the total, and the change is computed and shown			
		2	Click the number buttons beside **Exact** one at a time: **+1**, **+5**, **+10**, **+20**, **+50**, **+100**, **+500** and **+1000**	Each button adds its amount to the cash received, and the change goes up by the same amount			
		3	Click the **Charge** button at the lower-right	The **Confirm cash sale** window shows the items ordered, subtotal, discount, total, payment, cash received, change and customer			
		4	Click **Complete sale**	"Sale completed!" is shown, the stock goes down and the receipt prints			

Module	TESTCASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
	My sales today						
		1	Click **My sales** in the sidebar at the left	The **My sales today** window lists the cashier's sales for today with the time, sale number, customer, total and status			
		2	Click **Reprint** on a sale	The receipt of that sale prints again			
		3	Click **Ask for void** on a sale	A window asks what went wrong with the sale			
		4	Type what went wrong (example: Customer changed his mind), then click **Send request**	"Sent to a manager" is shown, the sale is marked "Void requested" and the administrator sees the request			
		5	Click **Cancel request** on the same sale, then **Cancel request**	"Void request cancelled. The sale stands." is shown, the sale is marked "Completed" again and the request leaves the administrator's list			
	Cash in and out						
		1	Click **Cash in/out** in the sidebar	The **Cash in or out of the drawer** window opens with the cash in the drawer now, and the **Taken out** and **Put in** choices			
	Taken out						
		1	Choose **Taken out**. In **Amount (₱)**, enter an amount that is not greater than the cash in the drawer (example: 200), type who took it and why, then click **Record cash taken out**	A question asks to confirm the cash taken out			
		2	Click **Record it**	"Recorded: ₱200.00 taken out." is shown, the amount, time and reason are listed under **Today**, and the cash in the drawer goes down by ₱200.00			
	Put in						
		1	Choose **Put in**. In **Amount (₱)**, enter the amount (example: 100), type who put it in and why, then click **Record cash put in**	A question asks to confirm the cash put in			
		2	Click **Record it**	"Recorded: ₱100.00 put in." is shown, the amount, time and reason are listed under **Today**, and the cash in the drawer goes up by ₱100.00			
	End of day						
		1	Click **End of day** in the sidebar	The **End of day cash count** window opens with the starting cash, today's cash sales, the cash put in and taken out, and the cash in the drawer now			

Module	TESTCASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
		2	Enter the cash counted in **Cash counted in the drawer (₱)**, then click **Save count and close drawer**	A question asks to close the drawer for the day			
		3	Click **Close the drawer**	The count is saved with the expected amount and "Balanced", "Over by" or "Short by", and no more sales can be made today			
SETTINGS MODULE							
	Profile						
		1	Click the account picture at the lower-left of the sidebar	The **Settings** page opens on the **Profile** tab with the cashier's name and email			
		2	Click **Upload photo**, then choose a picture from the computer	"Profile photo updated" is shown and the picture appears at the lower-left of the sidebar			
	Password						
		1	Click the **Password** tab, enter the valid current password and a valid new password twice, then click **Update password**	"Password changed" is shown			
LOGOUT MODULE							
	Sign out						
		1	Click the logout icon at the lower-left corner of the sidebar	A question asks "Are you sure you want to logout?"			
		2	Click **Log out**	The user is signed out and the **Sign in** page opens
