Name/s:		In Progress (Test is still in progress or not yet done)	
		Open (Not yet tested)	

Module	TESTCASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
CASHIER							
AUTHENTICATION MODULE							
	Sign in						
		1	Open FETCH in the browser by going to https://risha-pets.onrender.com	The **Sign in** page opens with the **Username** and **Password** fields, the **Keep me signed in** box and the **Sign in** button			
		2	Type a valid username and a valid password, then click the eye icon at the right of the **Password** field twice	The eye icon shows once something is typed. The password is shown as text, then hidden again in dot characters			
		3	Tick the **Keep me signed in** box below the **Password** field	The box is ticked, and the note below it says the account stays signed in on this browser for 7 days and to leave it off on a shared till			
		4	Click the **Sign in** button	The **Point of sale** opens. The sidebar is on the left side, and the account picture is at its lower-left			
		5	Close the browser, then open https://risha-pets.onrender.com again	The **Point of sale** opens right away without asking to sign in again			
		6	On the **Sign in** page, if you forgot your password, click **Forgot your password?** below the **Sign in** button	The **Reset your password** window opens. The username is already filled in if it was typed on the **Sign in** page			
		7	Type a valid username or a valid email, then click **Ask for a reset**	A message says that the request is sent to an administrator for approval			
		8	After an administrator approves the request, open the reset link sent to the email	The **Choose a new password** page opens			
		9	Type a valid new password in both fields (example: Risha@2026), then click **Save new password**	"Password has been reset" is shown, then the page goes back to **Sign in**			

Module	TESTCASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
POINT OF SALE MODULE							
	Starting cash						
		1	Sign in as Cashier using a valid username and a valid password at the start of the day	The **Starting cash** window opens and asks for the cash in the drawer			
		2	Enter the cash in **Cash in the drawer now (₱)** (example: 500), then click **Save starting cash**	"Starting cash saved: ₱500.00" is shown at the top right of the screen			
	Product search						
		1	Scan a product's barcode, or type it in the **Scan barcode** box at the upper-left	As soon as the whole barcode is in the box, the product is added to the **Current sale** on the right side (no Enter needed)			
		2	Type a product name in the **Search products** box at the right of **Scan barcode** (example: Aozi)	Only the matching products are shown in the product list, as you type			
		3	Click a category in the list at the left (example: Food)	Only the products in that category are shown			
	Current sale						
		1	Click a product in the list, or its **Add** button	"(product) added to cart" is shown at the top middle of the screen (not over the **Current sale**) and the product is listed in the **Current sale**			
		2	Click the same product again	No new notice is added: the one showing changes to "(product) added to cart · 2 in this sale"			
		3	In the **Current sale**, click the **+** button of the item, then the **–** button	The quantity goes up by one, then down by one, and the total changes with it			
		4	Type the customer's name (letters only) and a valid contact number in **Customer Name (optional)** and **Phone (optional)** (example: Maria Santos, 0917 123 4567)	If the customer's name and contact number are entered, they are shown on the receipt			
		5	Enter a discount within the administrator's limit (example: 5%)	The discount amount is computed and the total goes down			
	Payment						
		1	Under **Cash received**, click **Exact**	The cash received is filled in with the total, and the change is computed and shown			
		2	Click the number buttons beside **Exact** one at a time: **+1**, **+5**, **+10**, **+20**, **+50**, **+100**, **+500** and **+1000**	Each button adds its amount to the cash received, and the change goes up by the same amount			

Module	TESTCASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
		3	Click the **Charge** button at the lower-right	The **Confirm cash sale** window shows the items ordered, subtotal, discount, total, payment, cash received, change and customer			
		4	Click **Complete sale**	"Sale completed!" is shown, the stock goes down and the receipt prints			
	My sales today						
		1	Click **My sales** in the sidebar at the left	The **My sales today** window lists the cashier's sales for today with the time, sale number, customer, total and status			
		2	Click **Reprint** on a sale	The receipt of that sale prints again			
		3	Click **Ask for void** on a sale	A window asks what went wrong with the sale			
		4	Type what went wrong (example: Customer changed his mind), then click **Send request**	"Sent to a manager" is shown, the sale is marked "Void requested" and the administrator sees the request			
		5	Click **Cancel request** on the same sale, then **Cancel request**	"Void request cancelled. The sale stands." is shown, the sale is marked "Completed" again and the request leaves the administrator's list			
		6	Click **Ask for void** on another sale, type what went wrong, click **Send request**, and have the administrator void it under Reports, **Void requests**	Within a minute the till shows **Sale voided** (example: "Sale #2600 (₱2,700.00) was voided by a manager. Its items went back to stock."), and the sale is marked "Voided" in **My sales**. A declined request shows **Void request declined** instead			
	Cash in and out						
		1	Click **Cash in/out** in the sidebar	The **Cash in or out of the drawer** window opens with **Expected cash in the drawer now** hidden as ••••, and the **Taken out** and **Put in** choices			
		2	Click the eye icon beside ••••	The expected cash in the drawer is shown; it is hidden again the next time the window opens			
	Taken out						
		1	Choose **Taken out**. In **Amount (₱)**, enter an amount that is not greater than the expected cash in the drawer (a larger amount is flagged under the box as you type) (example: 200), type who took it and why, then click **Record cash taken out**	A question asks to confirm the cash taken out			

Module	TESTCASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
		2	Click **Record it**	"Recorded: ₱200.00 taken out." is shown, the amount, time and reason are listed under **Today**, and the expected cash in the drawer goes down by ₱200.00			
	Put in						
		1	Choose **Put in**. In **Amount (₱)**, enter the amount (example: 100), type who put it in and why, then click **Record cash put in**	A question asks to confirm the cash put in			
		2	Click **Record it**	"Recorded: ₱100.00 put in." is shown, the amount, time and reason are listed under **Today**, and the expected cash in the drawer goes up by ₱100.00			
	End of day						
		1	Click **End of day** in the sidebar	The **End of day cash count** window opens with the starting cash, today's cash sales, the cash put in and taken out, and **Expected cash in the drawer now** (hidden until the eye icon is clicked)			
		2	Enter the cash counted in **Cash counted in the drawer (₱)** (example: 1,500.50), then click **Save count and close drawer**	A question asks to close the drawer for the day. If the count is above the expected cash, the box turns red first with "This is ₱… more than the expected cash in the drawer. Count again before you save." (it can still be saved)			
		3	Click **Close the drawer**	The count is saved with the expected amount and "Balanced", "Over by" or "Short by", and no more sales can be made today			
SETTINGS MODULE							
	Profile						
		1	Click the account picture at the lower-left of the sidebar	The **Settings** page opens on the **Profile** tab with the cashier's name and email			
		2	Click **Upload photo**, then choose a picture from the computer	"Profile photo updated" is shown and the picture appears at the lower-left of the sidebar			
	Password						
		1	Click the **Password** tab, enter the valid current password and a valid new password twice, then click **Update password**	"Password changed" is shown			

Module	TESTCASE	ID	DESCRIPTION	EXPECTED RESULT	ACTUAL RESULT	COMMENT	STATUS
LOGOUT MODULE							
	Sign out						
		1	Click the logout icon at the lower-left corner of the sidebar	A question asks "Are you sure you want to logout?"			
		2	Click **Log out**	The user is signed out and the **Sign in** page opens
